Tarikul islam

Software Engineer | Node | React | Go |Docker | Microservices | AWS | gRPC.
Barisal District, Barisāl, Bangladesh

Summary

Software Engineer | Microservices Architect | Team Lead
Transforming complex business requirements into scalable, production-ready systems. With 4+ years of experience across startups and tech companies, I've shipped features used by thousands globally.
Currently at CyberSquadInc, architecting distributed microservices for international student visa processing—managing 10+ API gateways and handling multi-region operations.
Core Expertise:
Microservices (NestJS,Express, gRPC, RabbitMQ)
Full-stack Development (React, Next.js, Node.js)
Database Design (PostgreSQL, MongoDB, MySQL)
DevOps & CI/CD (Docker, AWS, GitHub Actions)
Former coordinator at GIZAN TECH and training instructor at EDGE, passionate about mentoring junior developers.
BSc in CSE from University of Barishal (CGPA 3.50)

EDGE BU CSE Digital Skills Training

EDGE BU CSE Digital Skills Training.

March 2024 - July 2024 (5 months)

Barisāl, Bangladesh

I had the honor of training in the EDGE BU CSE Digital Skills course, part of the groundbreaking EDGE project by the Bangladesh Computer Council (BCC). This initiative, funded by the World Bank and GoB, is set to transform Bangladesh’s digital landscape by creating a robust cloud platform, enhancing cybersecurity, and generating 100,000 jobs.

It’s been rewarding to contribute to a project that will shape the future of digital innovation and drive economic growth in the region!

PNC Soft Tech

Software Engineer

January 2021 - December 2022 (2 years)

Barisāl, Bangladesh

Technologies Used:

Front-end: React.js, Next.js, React Router, Redux, RTK

Back-end: Express.js, Node.js, PHP

Mobile Development: Flutter

Databases: MongoDB, MySQL

Key Projects:

FCFL: Developed a flight booking management system, handling end-to-end functionality.

Ammulete: Created a premium photo viewing app and dashboard, focusing on high-quality user interface and performance.

Responsibilities:

Designed and implemented front-end and back-end architectures.

Integrated databases and optimized queries for efficient data retrieval.

Collaborated with cross-functional teams to deliver robust, scalable solutions.

Utilized React Router for seamless navigation and Redux/RTK for state management.

Education

University of Barishal

Engineer's degree, Computer Science · (January 2018 - April 2024)
