Collin Weeks

Director of Business Development at X-Bow | Defense Solutions | Partnering with Government & Commercial Clients
Denver Metropolitan Area

Summary

Retired Army Officer, veteran, husband, and father.

I am always looking to connect with partners and customers interested in solid rocket motors, launch services, and and defense technologies. Please feel free to send a message to explore how we can work together.

I have over two decades experience leading large multi-disciplined teams in complex and dynamic environments. Assignments include planning and coordinating large scale training environments with a focus on multi-party integration.

Specializations: Business development, product management, planning, logistics, and problem solving.
I focus on synchronization and prioritization, but most importantly - taking care of our greatest asset, people.

Experience

X-Bow Systems Inc.
3 years 9 months

Director of Business Development
January 2025 - Present (1 year 6 months)
Denver, Colorado, United States

Leads business development for Solid Rocket Motors. Shaping the portfolio by guiding the pipeline with focus on the key business lanes: SRM, Launch Services, Defense and Advanced Technologies.
X-Bow provides services for advanced manufacturing of rocket propellant, solid rocket motor design and production, and sounding rocket flight services.

Senior Business Development Manager
October 2022 - January 2025 (2 years 4 months)
Denver, Colorado, United States

Serves as the senior business development manager for X-Bow Launch Systems focused on customer requirements and solutions. X-Bow provides services for advanced manufacturing of rocket propellant, solid rocket motor design and production, and sounding rocket flight services.

Maxar Technologies

Program Manager

April 2019 - September 2022 (3 years 6 months)

Westminster, Colorado

Program Manager for Tactical Ground Programs division.

o Served as Chief of Staff and managed a tactical satellite ground station product line that collects and processes commercial satellite imagery from numerous providers

o Primarily focused on transportable tactical satellite ground stations for austere environments that can integrate with network systems, providing commercial data via satellite down-link.

Accomplishments:

o Designed and won a sole source multi-year contract worth $11 million, wrote business development proposals, and productized offering.

o Directly responsible for management of a $4.5 million-dollar contract delivered perfectly on budget as a prime contractor.

o Managed 6 subcontractors to ensure on-time delivery of over $1 million in subcontract deliverables.

o Led the group’s talent acquisition and forecasting effort and grew team by 200% to 37 people by hiring a diverse group of engineers and project managers with a wide range of experience levels to build a matrixed team focused on diversity, inclusion, and technical delivery.

o Established recruiting and onboarding processes to increase diversity of candidates and grew from 10 to 37 people.

o ISO 9001-2015 quality processes compliance ranked highest in the company in audits.

o Developed agile task tracking in JIRA software for the technical team

DigitalGlobe

1 year 11 months

Technical Product Manager

June 2018 - March 2019 (10 months)

Greater Denver Area

Managed the technical development and operations of GBDX (Geospatial Big Data Platform) SaaS product hosted in AWS cloud. Worked across business units leveraging Agile principles to support both business and technical requirements. Managed and developed authorization systems, authentication systems, data delivery systems, performance tracking, and production service monitoring. Leveraged AWS, JIRA, Confluence, Elasticsearch, Excel, and SAAS tools.

• Identified operational efficiencies in cloud computing architecture that led to annual savings of over $230,000
• Led the product development for the platform data warehouse
• Managed the contracts and software integration of 11 external software vendors and renegotiated multiple contracts saving the company over $20,000
• Developed SLA and SLOs for GBDX
• Synchronized and coordinated requirements with 12 teams, across multiple departments, and leveraged cross-functional collaboration to accomplish multiple software development projects simultaneously

Product Manager
May 2017 - May 2018 (1 year 1 month)
Greater Denver Area

Product and Project Manager for GBDX (Geospatial Big Data Platform) SaaS solution with a focus on big data cloud software integration.
