Janel Timoney Brown

Zscaler Account Director, DISA & 4th Estate | Naval Academy BGO. Talks about Cloud, ZT, Defense, Joint, Cyber, Space

Greater Tampa Bay Area

Summary

Public Sector GTM executive with 15+ years leading cloud, AI, and national-security technology growth across the U.S. Department of Defense, Intelligence Community, and Federal Civilian agencies. Proven track record building and scaling government businesses that operate at the intersection of cloud modernization, Zero Trust, AI-enabled intelligence, and mission-critical operations.

I’ve held senior GTM leadership roles at Microsoft, Zscaler, and Maxar, owning strategic accounts, enterprise programs and consulting teams across SOCOM, COCOMs, DISA, NGA, DIA, Fed Civ (DHS, DOJ, DOE) and the Fourth Estate. My experience spans standing up government-ready sales motions, expanding DOW, Special Operations and Intelligence portfolios, and closing large, multi-year programs aligned to operational and intelligence missions.

Core strengths include cloud and Zero Trust architectures, secure data platforms, AI-driven intelligence workflows, and classified-to-unclassified integration. I’ve partnered closely with product, engineering, security, and legal teams to align commercial innovation with government realities, including FedRAMP pathways, IL5/6/TS alignment, ATO strategies, and enterprise contract models that scale across agencies and commands.

I’m known for building high-performance GTM engines: elite sales teams, pipeline development, trusted SI and OEM ecosystems, leading consulting engagements, and executive-level government relationships that accelerate adoption and revenue. My approach combines trusted partnerships and strategic vision with operational rigor — turning complex mission needs into repeatable, defensible growth across DoD, IC, Federal Civilian, and the Systems Integrator community.

With prior military experience and deep exposure to Navy, Special Operations, and Intelligence missions, I bring a practitioner’s mindset to every engagement
, grounded in how capabilities are funded, fielded, and sustained in real-world environments. I thrive in high-ambiguity, high-impact roles where credibility, leadership, and execution matter.

Experience

Zscaler
Account Director - DISA & 4th Estate
August 2025 - Present (6 months)
United States

Women In Defense
10 years 4 months

Board of Advisors, Greater Tampa Bay Chapter
October 2017 - Present (8 years 4 months)

President
October 2015 - October 2017 (2 years 1 month)
Greater Tampa Bay Area

Founding board member of the Greater Tampa Bay Chapter of Women in Defense.

Microsoft
4 years 5 months

Director, Joint DOD Account Executive
January 2022 - August 2025 (3 years 8 months)

• Spearheaded sales initiatives for one of Microsoft’s top 20 fastest-growing global accounts, achieving over 100% of quota from 2022 to 2024.
• Closed the largest SaaS enterprise sale in Microsoft Federal focusing on low-code/no-code solutions and AI innovations. Drives pioneering AI design wins in Edge, Data Mesh, Cyber, and Knowledge Graph.

• Developed a robust $150M+ pipeline, driving 25% year-over-year growth in new DOD account penetration.

Director, Microsoft Federal Consulting Services
April 2021 - January 2022 (10 months)

People Manager & Strategic Business Development Executive – Federal Civilian Practice Microsoft Consulting

- Drove strategic business development and executive relationship management for the Federal Civilian practice, focusing on classified accounts including DOJ, DOE, DHS, and DOS.
- Managed and mentored a team of Federal Civilian Program Managers, Project Managers, and Consultants, ensuring successful project execution and career development.
- Partnered with senior executives across federal civilian agencies to build trusted relationships, align technology solutions with mission-critical goals, and enable successful digital transformations.
- Delivered enterprise technology strategies tailored to address complex business challenges, assess risks, and guide agencies toward modernized capabilities and processes.
- Played a key leadership role in shaping project strategies and long-term digital transformation initiatives, driving both customer satisfaction and business growth.

Maxar Technologies
6 years

Director, DOD Account Executive
January 2020 - April 2021 (1 year 4 months)

Sales Executive & People Manager – Geospatial Product Sales

-Closed $94.7M OTA with Army PEO STRI and drove additional wins with the intelligence community (IC) and SOCOM for AR/VR and EO/SAR imagery.
- Secured Maxar’s first $4.2M AWS-based maritime ISR contract with the Navy (NIWC) following a successful $750K COCOM pilot to benefit international partner ISR requirements.
- Led business development efforts for 3D, SAR, EO, OSINT, and AI analytics across defense and intelligence community (IC) customers, positioning Maxar’s offerings as critical enablers for mission success.

Director, Special Ops & International Defense (Radiant Solutions, a Maxar acquistion)
April 2017 - January 2020 (2 years 10 months)
Greater Tampa Bay Area

- Led a $15M+ geospatial intelligence portfolio and successfully doubled international and channel defense sales.
- Won the $10M SOCOM SOCRATES 4-year program by driving strategy, capture, and teaming efforts.
- Demonstrated expertise in SBIR, OTA, ODC, and delivering contracting options for novel solutions to complex mission requirements.
-Successfully managed partnerships and teaming efforts with leading defense contractors including Northrop Grumman (NGC), Boeing, Leidos, CACI, Peraton, Booz Allen Hamilton (BAH), and tribal/8(a) businesses.

Director, Special Operations Solutions (Digital Globe, a Maxar acquisition)

May 2015 - November 2017 (2 years 7 months)

Tampa/St. Petersburg, Florida Area

Sales Executive & People Manager, Geospatial Services & Solutions role.
-Led sales efforts for geospatial services and solutions, acting as a trusted advisor to government and commercial clients.
-Managed a team of Sales Engineers, providing guidance, performance mentorship, and leadership to drive operational excellence and exceed client expectations.
-Delivered tailored geospatial information products and high-resolution satellite imagery to address critical intelligence, defense, and commercial needs.
-Collaborated cross-functionally with internal teams and external partners to develop customized solutions that optimized mission success and customer outcomes.
-Contributed to the integration of DigitalGlobe's services into Maxar Technologies following the acquisition, enabling the formation of Radiant Solutions.
Note: DigitalGlobe was acquired by Maxar Technologies in 2017, merging with MDA's analytics business to form Radiant Solutions. Learn more at www.RadiantSolutions.com.
