Measuring AI R&D Automation

Ranay Padarath

AI Policy Lead @ DSIT & former Summer Fellow @ GovAI
London, England, United Kingdom

Summary

AI will have a transformational impact on our lives. Government has an important role to play in steering AI development away from risky futures and harnessing the powerful capabilities of AI to solve important problems. That is why I work on AI policy at the UK Department for Science, Innovation and Technology (DSIT). Currently, my focus is understanding how cross-cutting and sectoral regulation may be hindering AI development, deployment and adoption across the UK economy. Note: All activity and views are my own, and do not represent the views of the UK government.

Experience

Department for Science, Innovation and Technology
2 years 10 months

Policy Lead
December 2025 - Present (8 months)
Greater London

- Team: AI Growth & Adoption
- Focus: AI Growth Lab Call for Evidence

Senior Bill Officer
April 2024 - January 2026 (1 year 10 months)
London Area, United Kingdom

- Team: AI Bill Team, AI Policy Directorate
- Focus: Establishing the UK's first AI regulatory regime

Policy Advisor
October 2023 - April 2024 (7 months)
Greater London, England, United Kingdom

- Team: Compute, AI Policy Directorate
- Focus: Compute governance for safety

Centre for the Governance of AI (GovAI)
Summer Fellow

June 2025 - August 2025 (3 months)
London Area, United Kingdom

KPMG Australia

2 years 7 months

Senior Management Consultant

October 2021 - April 2022 (7 months)
Melbourne, Victoria, Australia

· Co-authored a $100 million business case for the Victorian Department of Health in response to Recommendation 63 of the Royal Commission into Victoria's mental Health System. The business case proposed the creation of a state-wide mental health electronic health record, health information exchange and consumer portal. The business case has since been funded by the Victorian Department of Treasury and Finance.

· Developed a 5-year technology strategy, application evaluation framework and IT services delivery model for medium-sized non-profit

· Hosted over 30 virtual stakeholder meetings across 3 major projects - including 5+ senior executive interviews (leading role), 20+ SME workshops (facilitating role), 5+ steering committee meetings (supporting role). Experienced in using MURAL (virtual whiteboarding tool) and Microsoft Powerpoint to prepare workshop material and collect participant feedback

· Organised and hosted a half-day career workshop for 29 university students to increase participants' interview preparedness. This involved 60 mock interviews hosted by 8 interviewers over 4 hours

Management Consultant

October 2019 - September 2021 (2 years)
Melbourne, Victoria, Australia

Key projects and achievements:

· Co-ordinated financial remediation payments to 96% of in-scope customers over 1.5 years (under secondment at a large financial institution) using Microsoft Excel

· Generated policy ideas for the state education department's Digital Schools Roadmap. These were based on the analysis of 10 key trends identified across highest-ranking OECD countries (ranked by PISA scores)

TechnologyOne

Business Analyst

February 2019 - August 2019 (7 months)

Melbourne, Victoria, Australia

Key project:

· Mapped, designed and automated business process workflows for a local government client (urban planning team) evaluating building applications, resulting faster processing times

Apple

6 years 2 months

Genius (Tier 3 Technician)

June 2017 - February 2019 (1 year 9 months)

Brisbane, Queensland, Australia

Key projects and achievements:

• Achieved an annualised Net Promoter Score of 83, solving complex software and hardware issues (including multi-component repairs) for Apple Mac customers on the Genius Bar

• Led training for over 100 staff at 4 product launches and facilitated targeted competency training (e.g. improving empathy) for technical support staff

Technical Expert (Tier 2 Technician)

March 2017 - June 2017 (4 months)

Brisbane, Queensland, Australia

Key projects and achievements:

• Achieved an annualised Net Promoter Score of 76, solving complex software and hardware issues (including multi-component repairs) for Apple iPhone customers at the Genius Bar

• Designed an employee engagement campaign to grow the number of business accounts over a 2 month period, resulting in the highest % growth of new accounts for all stores in our market during this time

Technical Specialist (Tier 1 Technician)

January 2016 - March 2017 (1 year 3 months)

Brisbane, Queensland, Australia

Key achievement:

• Achieved an annualised Net Promoter Score of 68, troubleshooting software and hardware issues for Apple iPhone customers on the Genius Bar

Product Specialist (Tier 1 Salesperson)
January 2013 - January 2016 (3 years 1 month)
Brisbane, Queensland, Australia

Key achievement:

• Achieved annualised NPS scores between 63-89 over 3 years, serving customers purchasing Apple product and services

Rotaract Club of Brisbane International (rCBI)
Founder and Director of Membership
June 2017 - January 2019 (1 year 8 months)
Brisbane, Queensland, Australia

Key achievements:

• Co-founded the Rotaract Club of Brisbane International (RCBI), attracting 26 young people to volunteer 1-3 hours per week to work on community projects

• Key projects: Outreach program for people experiencing homelessness (served hot dinners to patrons in need), organised a mental health seminar targeted at immigrant minorities and fundraised over $3,000 for other charity's initiatives

Quickcell Technology Products Pty Ltd
Engineering work experience
April 2018 - June 2018 (3 months)
Bromelton, Queensland, Australia

Responsibility:

• Collected quality control measurements with the lead quality engineer to ensure concrete products met specifications.

QUT Mechanical Engineering Student Society (MESS)
1 year 7 months

Social Director (Executive)
November 2015 - November 2016 (1 year 1 month)
