Stefan Kraus

Co-founder, CTO @ Kraus Hamdani Aerospace, Inc. | CISSP
United States

Summary

Since the majority of people out there are afraid to take a risk, it allows people like us to own the playing field ... "Fortes fortuna iuvat" :)

Experience

Kraus Hamdani Aerospace, Inc.

Co-founder, CTO
March 2016 - Present (10 years)
Reno, Nevada, United States

At Kraus Hamdani Aerospace, we develop the worlds longest endurance fully electric zero-emissions Unmanned Aerial System ("UAS") in our size and weight category (Group-2 UAS). Our K1000ULE UAS is a world first truly persistent and highly capable aerial platform revolutionizing how we conduct non-stop airborne operations. Our technology mimics nature by utilizing onboard Artificial Intelligence to silently glide through the air like a bird, and generate clean onboard energy using power harvested from the sun and extracted from the atmosphere. Our technology is a breakthrough for modern aviation and autonomous aerial robotics to expand on the capability of electric aircraft.

First Performance

Shareholder (Founding President & CEO)
January 2014 - March 2016 (2 years 3 months)
Atlanta, Georgia

MasterCard acquired the business of First Performance in January 2023!

First Performance Corporation are the creators of the GogoNogo card control technology, empowering cardholders by allowing them to participate in the authorization logic of their card-based transactions; satisfying a fundamental market-wide need for control.

First Performance revolutionized the way in which people securely use their debit and credit cards!

Gijima

9 years 10 months

Managing Director, Foresight

March 2010 - December 2012 (2 years 10 months)

Gijima acquired the business of Cubico Solutions, and its flagship technology, Foresight, in March 2010.

During his appointment at Gijima, Stefan was responsible for Foresight's ongoing strategy, technology direction, and market evangelism. As part of the acquisition, Stefan remained with the team and grew the Foresight business into being one of the most profitable business-units within the Gijima group.

Co-founder, Executive Managing Director

March 2003 - March 2010 (7 years 1 month)

Stefan, together with co-founder Aurelien Duarte, created and successfully brought to market their leading IT Security Vulnerability Management platform, Foresight, competing with both Qualys and McAfee Foundstone. Together, they successfully grew year-on-year revenue and matured the business to being Southern Africa's largest vulnerability management provider with over 1,000,000 annual endpoint audits.

In March 2010, Cubico Solutions was acquired by Gijima, a publicly traded company listed on the Johannesburg Stock Exchange (GIJ).

BEST Holdings (PTY) Ltd.

Co-founder, Managing Director, Technology

January 1999 - February 2003 (4 years 2 months)

Stefan, a founding shareholder in BEST Holdings (PTY) Ltd., was responsible for the development and management of corporate IT strategy, security, technology investments and policy.

The businesses focused on creating turnkey technology for both the telecommunications and process control industries.

ISP - merged with other companies to form BEST (PTY) Ltd.

Co-founder, Engineer

January 1998 - January 1999 (1 year 1 month)

Integrity Solution Providers (ISP) was a company with a focus in developing middleware, process-control and automation technologies for heavy-industry.

Stefan assisted ISP with a merger that included three key South African process-control based businesses to form BEST Holdings (PTY) Ltd.
