How Large Language Models Changed My Entire OSINT Workflow

Anthony Mensier

Investment Manager @ Expeditions | ex-CTO | National Security | Deftech | Cyber | Artificial Intelligence & Big data
London, England, United Kingdom

Summary

From data specialist to CTO in under a decade, I thrive in building human–machine assisted workflows using state of the art information retrieval and insight generation approaches such as semantic knowledge graphs that are redefining how national security turns data into decisions.

Experience

Expeditions
3 years 1 month

Head of Silent Unseen
October 2025 - Present (9 months)
