A career focused on experiencing and understanding the business, products, and industries/markets in tech.

To explore how I can help you make decisions, create compelling content (blog,webpage,sales enablement, ...), understand industry/markets, contact me at: mark@bohcay.com.

If most of your energy is spent on surviving politics, do not contact me. I work well with issue oriented people that are focused on purpose and well understood objectives, not on politics.

Do I handle ambiguity? If you do not have clarity on what you want to do, and why you want to do it, or are not interested in getting to that clarity, talk to someone else. I'm in it for great outcomes, not to tick the boxes.
