onsemi
Data Preparation and Tool Development Intern
June 2023 - September 2023 (4 months)
Pocatello, Idaho, United States

Rebuilt and updated outdated development tools, streamlined process, improved process runtime and implemented novel processes to accommodate technology with limited file size capacities.
Automated manual processes using various scripting languages including Python, Perl, and BASH.
Read, digested and improved legacy tools written in compiled languages - Java and C and many tools that utilized various databases especially mysql.
Learned to build extremely user friendly tools and code to be used by a team of engineers that are not primarily software engineers.
Experience working with Calibre Layout design tools.
Communicated efficiently and effectively with the manager to meet and exceed requirements.

University of Washington
9 months

Teaching Assistant
September 2022 - December 2022 (4 months)
Seattle, Washington, United States

Gave presentations to a class size of over 200 students. Assumed leadership position on a team of 20 TAs, led the development of presentations for students. Received an evaluation of “Excellent: Particularly great TA, even by the Allen School’s high standards”

Orientation Leader
April 2022 - September 2022 (6 months)
Seattle, Washington, United States

One of 30 students selected at a university of 40,000 to give orientation to 9,000 incoming freshmen. Developed leadership and interpersonal skills by facilitating team virtual presentations for incoming students. Managed a busy virtual work environment involving fast paced communication and short deadlines.
