Omar K

Providing innovative modernization solutions to global companies. Privacy Engineering, Cybersecurity Solutions, Security Research, Artificial intelligence, AI, cloud computing, dynamic business apps, e-commerce
San Diego, California, United States

Summary

Highly adaptable technical leader with great focus on Privacy by Design + Secure By Design. cybersecurity practitioner, advanced artificial intelligence solutions, AI, Gen AI, LLMs, IT Management, Cloud Computing: AWS, Google Cloud, Microsoft Azure, Governance, Risk Management and Compliance Practitioner. Providing fractional CTO solutions for technology focused companies and startups. Build > Measure > Learn > Improve. I'm passionate about privacy engineering, security research, business, FinTech, Privacy By Design & Secure By Design. I've worked for many companies in several industries: Technology, Banking, HealthCare, Government, FinTech, Cybersecurity. I'm a super technical solutions provider, I bring a ton of value to the table. In order for me to truly innovate I need full autonomy, a healthy work environment with friendly and kind people in it.
