Tania R.

Scaling your expertise across your firm
San Francisco Bay Area

Summary

I help senior leaders at professional services firms, educational institutions, and museums scale their expertise—turning decades of judgment and learning into instant guidance.

My background: 20 years of Silicon Valley software product leadership, building groundbreaking tech from 0 to 2M+ users (Shopify, GoDaddy). My products have been featured in the Super Bowl, won Innovation Awards, hit the top 100 iOS app charts, and earned deep customer love.

Experience

Luciaverse
Founder
May 2022 - Present (3 years 10 months)

Scaling intelligence through AI digital twins of senior leaders. We capture how your best executives think, decide, and guide, then make that expertise available to every team member for high-stakes meetings, pitches, and decisions.

This is the future of mentorship at scale.

Pulseworks
Director of Product, AI
August 2023 - Present (2 years 7 months)

Pulseworks offers wonder to millions of museum goers in the US with its interactive and cutting edge learning experiences.

At Pulseworks, I conceptualize and ship novel AI products including virtual avatars and educational games, reaching 1M+ visitors across museums and research institutions.

I leverage modern AI development tools (Codex, Cursor) to accelerate prototyping and ideation cycles. I'm also responsible for rapid experimentation in AI applications for educational content and interactive experiences.

I also lead educational initiatives on using AI via presentations and internal training programs.

Shopify

Product Lead, Shopify

January 2022 - May 2023 (1 year 5 months)

Strategized and launched getting started with Shopify Logistics. Transformed a time-consuming manual onboarding process into a simple and easy self-serve experience. Product leader for an R&D organization across several consumer-facing domain areas (acquisition, activation, and inbounds)

Drove rapid experimentation to 10x growth. Increased merchant sign-ups by over 1500% and reduced time to start fulfillment by 55%.

Handpicked by Senior Leadership to spearhead key integration strategies for Shopify's biggest $2B acquisition with Deliverr.

GoDaddy

8 years 2 months

Director of Product Management, E-Commerce

September 2017 - December 2021 (4 years 4 months)

Conceptualized, built & launched GoDaddy’s Online Store to 2M+ active users. Featured in the SuperBowl, recipient of GoDaddy’s Innovation Awards, and top usability winner in leading publications.

Hired & managed a team of PMs to create and execute a company-wide commerce roadmap for GoDaddy’s marquee commerce products: Online Store, Online Appointments, and Pay in Person

Advised C-level on pricing, market segmentation, and product offerings contributing to $XM in incremental revenue YoY

Grew merchant GMV over 300% in 3 years with customer-centric feature improvements and fast experimentation

Achievements highlighted in IPO filing and multiple earnings calls.

Senior Product Manager
November 2013 - September 2017 (3 years 11 months)

Promoted to oversee GoDaddy's commerce portfolio. Expanded from GoDaddy's Online Store with 2m+ users to launch GoDaddy Online Appointments to 17M domain customers.

JetFreely, Inc.
Co-founder, Product
October 2012 - November 2013 (1 year 2 months)

Built a business helping travelers find trips easier based on their budget and mood.

Negotiated a sales partnership with a travel company in India to sell tours to the Indian market. Launched a new travel site, determine key product and business drivers around user acquisition (Google Adwords & Facebook campaigns) and tour sales.

Designed website, tablet and mobile user interfaces, pixel by pixel.

Goko
Product Manager
January 2012 - October 2012 (10 months)
Redwood City

Led the design of the first HTML5 based game experience of Citadels and Settlers of Catan, board games with over 18 million sales worldwide.

As direct report to COO, developed novel game mechanics to adapt to HTML5 requirements on mobile, tablet and web

Created Goko’s first revenue generation model by designing an in-game virtual economy with in-app purchases and advertisements

PlayFirst
Product Manager
May 2011 - January 2012 (9 months)
San Francisco

Led Playfirst's first free-to-play title, DinerTownZoo, to become a Top 100 IOS App

Responsible for full product/game lifecycle. Drove product roadmap across multi-disciplinary teams: design, art, and engineering to launch core features that impacted retention, engagement and revenues.

Developed the in-game monetization economy. Analyzed metrics to derive insights on user trends and behavior to adapt monetization mechanics and drive incremental revenue.

Measured the success of product features after release and optimized their performance through rapid, data driven iteration.

Dyyno
Sr. Product Manager
September 2008 - March 2011 (2 years 7 months)

Led the design of novel p2p video broadcasting tools, driving adoption to 100,000+ users.

Managed and oversaw partnerships with Cisco & Electronic Arts

Oversaw the embedding of Dyyno into a hardware video capture device (Geniatech EZCapture) with a base of 1 million customers in China.

Winner of 9 exceptional contribution awards as first Product Manager at Dyyno

MyThings, Inc.
Product Manager
August 2007 - August 2008 (1 year 1 month)

Drove product requirements across international team in the US and Israel to build an e-commerce platform that grew to 400,000 members.

Oversaw partnership integrations with leading retailers Walmart.com, Dell, Woolworths, and Tiger Direct.
