Summary

I’m a results-driven Data Engineer with hands-on expertise in SQL, PySpark, Azure Data Factory, Databricks, and Synapse. I specialize in building scalable data pipelines, analytics platforms, and automating ETL workflows to drive smarter business decisions.

With experience across domains like e-commerce, finance, pharma, and aviation, I’ve delivered end-to-end data solutions—from data extraction to cloud migration and real-time analytics. I’m passionate about simplifying complexity through automation and cloud technologies, and thrive on turning raw data into meaningful insights.

Let’s connect if you’re solving big data problems or exploring modern data platforms!
