Andrei Azbukin MD

Medical Device Sales / Orthopedic surgeon, MD
Dallas-Fort Worth Metroplex

Summary

Former orthopedic surgeon turned medical device sales professional with proven success in building building territories from zero, and driving adoption through clinical education and surgeon-level credibility. Experienced supporting physicians in diagnostics, workflow optimization, and patient-specific treatment protocols.Known for converting skeptical clinicians into long-term partners through trust, data, andconsistent follow-through. Native-level bilingual in English and Russian. Known for building teams of 30+, expanding client bases, and investing in people as deliberately as bottom-line results. Former franchise director. An optimist's drive. A realist's execution. Always learning, always showing up.Fully open to relocation, no obligations, no hesitation.

Experience

Nu Skin
Medical Device Sales Representative
June 2025 - Present (1 year 1 month)
Irving, TX

- Promoted and sold the Prysm IO Bio-photonic Scanner to physicians and clinics throughout DFW, educating providers on antioxidant-level diagnostics and driving individualized supplement protocol sales backed by a 60-day satisfaction and money-back guarantee.

- Analyzed patient scan results to recommend targeted supplement protocols addressing joint, gut, skin, and systemic health — combining clinical insight with a relationship-first sales style that drove repeat purchases and in-practice referrals.

- Cultivated long-term account loyalty by reducing physician hesitation through evidence-based product education and by building trust across a territory with no prior commercial history.

TR Diagnostics & US Diagnostics
Medical Specialist
June 2023 - December 2024 (1 year 7 months)
Dallas, Texas, United States & Las Vegas, NV

TR & US Diagnostics are private, multi-state diagnostic services companies operating as a middleman provider, deploying mobile diagnostic resources across physician offices and healthcare facilities. Full service portfolio includes sonography (cardiac, vascular, abdominal, and ECHO), ANS (Autonomic Nervous System) testing, allergy testing, and additional diagnostic modalities.

- Performed a comprehensive range of diagnostic procedures — including cardiac, vascular, abdominal, and ECHO sonography, ANS (Autonomic Nervous System) testing, and allergy testing, all across multiple clinic environments in both the DFW and Las Vegas markets as a mobile, clinic-agnostic resource.

- Served as a key diagnostic provider at Golden Life clinic in Las Vegas, NV, a mission-driven community health center providing no-cost medical and mental healthcare, free meals, bus passes, and employment assistance to homeless, unemployed, and medically underserved individuals.

- Collaborated with physicians and healthcare professionals across multiple facilities to ensure diagnostic accuracy, seamless care coordination, and thorough patient record documentation while adapting quickly to varying workflows and clinical environments.

The Cleaning Authority
Head of Business Operations
February 2021 - May 2023 (2 years 4 months)
Ft Worth, TX

Directed full operations of a The Cleaning Authority franchise, one of North America's largest residential cleaning networks, with 220+ locations in 40 U.S. states with average annual revenues of $1 million+ per location. Carried full accountability for a staff of 32–40 all being ready to go, across scheduling, payroll, hiring and everyday prospect visits.
- Expanded the recurring clients 30% in just 3 years, 500 to 650 accounts, through direct, disciplined outreach with ~10 prospect visits weekly resulting in an 85% closing rate. Cultivating B2B relationships with local gyms, storage facilities, and churches to drive long-term collaboration.

- Engineered a dramatic reputation turnaround by developing a novel employee comp. incentive program that drove Google review ratings from 1.5 to 4.5 stars within just 6 months.
- Navigated the TCA through the COVID-19 pandemic, retaining ~92% of the existing customer base, continuing to acquire new accounts, and maintaining profit stability throughout one of the most challenging economic periods in modern history.
- Modernized office infrastructure, from the ground up, the 1st time since the 80's. Upgrading to contemporary machinery, the old office getting a deserved refit, replacing worn field equipment with ergonomic tools that reduced physical strain & improved efficiency across the board.
Increased employee wages, starting bringing up morale by creating two new career-track roles, Trainer & Supervisor -a clear organizational path for growth. It improved retention, turnover loss, and kept some employees with us , some for 10+ years.
-Strengthened team culture by organizing & funding recognition parties, leading to higher productivity, lower absenteeism, and a sense of belonging & bonding among all staff.
Launched the franchise's mandatory uniform, equipping every new employee with a uniform at no personal cost since day one — brand identity increase and to professionally carry yourself during any employee-client run in.

Vitebsk Regional Clinical Hospital (1/6 qualif hospitals in Belarus)
Orthopaedic Surgeon
June 2018 - January 2021 (2 years 8 months)
Vitsyebsk, Belarus

Vitebsk Regional Clinical Hospital is one of only 6 regional-level hospitals in Belarus and the flagship institution for trauma and orthopedic surgery in the Vitebsk oblast — providing the highest-acuity surgical training environment available in the region.

- 2018-2021 Progressed from assisting surgeon, starting during the honor of receiving to complete my residency there, on Total Knee Arthroplasty (TKA) procedures to serving as primary operating surgeon, independently conducting an average of 52 TKAs per year.

- 2018-2019 Secured 4 official Certificates of Rationalization from Vitebsk Regional Clinical Hospital, with all 4 methods formally implemented across Belarus.

- 2019 - Earned 1st place at the XXVth Republican Competition of Scientific Works of Students, for research on local analgesia methods for TKA — ratified for republic-wide implementation by the Minister of Education of the Republic of Belarus (Order No. 237, March 26, 2019).

- 2018-2021 - Co-authored multiple research papers on TKA procedure time optimization, intraoperative local analgesia in hypotensive patients, and accelerated post-operative recovery .

- Left due to decision to move back to the US for opportunity.

X-LINE PRIVATE GYM
Sales Associate & Gym Manager
2013 - 2015 (2 years)
Vitsyebsk, Belarus

2013-2015 - Executed thousands of cold calls with a 5.5% conversion rate, personally driving 200+ new paid memberships through relentless outreach and an unwillingness to accept any "no" as final.

·2013-2015 Converted 90% of in-person prospects into members by leading personalized facility tours and connecting each individual's goals to the gym's offerings — a skillset built entirely on listening, reading the room, and genuine enthusiasm.

2014 - Named Employee & Salesman of the Year — recognized by both peers and management for elevating the team and showing up fully in every shift
