Anna Katariina Wisakanto

Systems Thinking & AI Safety Research and Strategy
Helsinki, Uusimaa, Finland

Summary

Engineering Physics | Complex Adaptive Systems | ML & DL | Quantum | Decision Intelligence | Scaleups | Values for the Future | Risks from Global Systems | AI Safety | Technology Strategy | System Resilience | Service Design | Generative AI | Foresight | AI Evaluation & Measurement | Comprehensive & Probabilistic Risk Assessment for AI

Experience

Center for AI Risk Management & Alignment (CARMA)
2 years 3 months

Senior Risk Assessment Associate
July 2025 - Present (11 months)

Comprehensive Risk Assessment Lead
March 2024 - June 2025 (1 year 4 months)

Independent
AI Researcher & Strategic Advisor
November 2023 - Present (2 years 7 months)

McKinsey & Company
Digital Consultant
May 2023 - October 2023 (6 months)
Helsinki, Uusimaa, Finland

QuantumBlack, AI by McKinsey
Consultant
May 2023 - October 2023 (6 months)
Helsinki, Uusimaa, Finland

Leverhulme Centre for the Future of Intelligence
Visiting Scholar
November 2022 - May 2023 (7 months)

Cambridge, England, United Kingdom

Risks from global systems and AI safety research.

Independent

AI Safety Researcher

January 2023 - April 2023 (4 months)

San Francisco, California, United States

Human-AI interaction.

McKinsey & Company

1 year 1 month

Scale-up Analyst

December 2021 - September 2022 (10 months)

Helsinki, Uusimaa, Finland

Digital and Analytics Intern

September 2021 - December 2021 (4 months)

Helsinki, Southern Finland, Finland

Cambridge Existential Risks Initiative

Research Fellow

June 2021 - August 2021 (3 months)

Cambridge, England, United Kingdom

Truncation of humanity's space of ideas: How ML cumulatively limits cultivation of novel thought in the long term.

Ericsson

4 years

Data Analyst

June 2019 - March 2021 (1 year 10 months)

Gothenburg, Sweden

KPI metrics correlation analysis, feature engineering and development, automated filter generation with ML-methods in Python, e.g. Scikit-learn, Numpy, Pandas, Keras.

Digital Lab Developer

April 2017 - August 2019 (2 years 5 months)

Developer and Educator of Ericsson Digital Lab Programme content in Sweden and abroad.

Machine Learning Engineer

June 2018 - August 2018 (3 months)
Gothenburg, Sweden

Visualization and ML-methods in Python. Graph embedding, scikit Learn, Numpy, Pandas.

Software Developer
June 2017 - August 2017 (3 months)
Gothenburg, Sweden

Web Application Development (Node.js, Angular) and Programming Course Development (Ericsson Digital Lab) at Ericsson One incubator.

Education

Chalmers University of Technology
Complex Adaptive Systems · (2020 - 2022)

Chalmers University of Technology
Engineering Physics · (2014 - 2020)
