Dr. Laura Gilbert CBE

Making Government more Human with AI

Medstead, England, United Kingdom

Summary

Run of the mill beardy physicist. DPhil Oxon, MA/Bsc Cantab, FInstP, CPhys, FIoA"Knowledgable and a bit cantankerous" -- David Halpern"Will grow up to become the dictator of a small island" -- Phoebe Woolam"Excellent, clear, authoritative." -- Lord Chris Holmes "Gorgeous, but far less informative than a map would have been" -- Tim Harford. To be fair - this one was not about me.Dr. Laura Gilbert is the Senior Director of AI and Head of the AI for Government program at the Tony Blair Institute, working to deliver a program of AI solutions to improve the ability of governments to plan and deliver resilient public services and generate better economic and wellbeing outcomes for their citizens. From September 2020 to January 2025 Laura worked in 10 Downing Street as the founding director of 10DS, the data science and analytics team, and the Incubator for Artificial Intelligence (i.AI). These high-performance teams successfully provided ground-breaking, fast-paced modelling and analysis to support policy making and delivery, and delivered expert data and AI solutions into public services. Laura holds a doctorate in Particle Physics and Computing from Oxford University, undergraduate degrees from Cambridge University and is a visiting professor at the London School of Economics and Policy. She has previously worked in defence intelligence and quantitative finance, and for nearly a decade was founder/CTO of a medical technologies company, Rescon, bringing it from start-up to SMT to acquisition before exiting and joining government in 2020. In 2023 she was awarded a CBE for Services to Technology and Analysis. She lives in Hampshire with her three children and a wide and varying range of unusual pets. She enjoys playing the piano, oboe and harp, repeatedly attempting and largely failing to learn Arabic to a workable level, and Savate kickboxing. She has competed for Britain 7 times and coaches. She is a qualified firebreather.

Experience

Tony Blair Institute for Global Change
Senior Director of AI
January 2025 - Present (1 year 7 months)

Hertford College, University of Oxford
Visiting Fellow
June 2026 - Present (2 months)

The London School of Economics and Political Science (LSE)
Visiting Professor in Practice
November 2023 - Present (2 years 9 months)

Ellison Institute of Technology Oxford
Head of AI for Government
January 2025 - April 2025 (4 months)

10 Downing Street
4 years 5 months

Director of the Incubator for Artifical Intelligence
November 2023 - January 2025 (1 year 3 months)
London Area, United Kingdom

SRO for the AI for Public Good program

Director of Data Science
September 2020 - January 2025 (4 years 5 months)
London

Great Britain Savate Federation
9 years 5 months

President
November 2014 - February 2021 (6 years 4 months)

Director of Technique
October 2011 - November 2014 (3 years 2 months)
UK

Rutherford Research Limited
Co-Founder, Consultant
March 2020 - September 2020 (7 months)

ResCon

Chief Information Technologist

January 2011 - March 2020 (9 years 3 months)

Hertford College, Oxford

Lecturer

January 2004 - January 2014 (10 years 1 month)

Oxford

Teaching physics and maths to undergraduates

Eladian Partners

Associate Director and Quantitative Analyst

September 2012 - October 2012 (2 months)

Eladian partners closed down on 17th October.

Man AHL

Senior Quantitative Analyst

February 2011 - July 2012 (1 year 6 months)

GLC Ltd.

Quantitative Analyst

September 2009 - December 2010 (1 year 4 months)

University of Oxford

6 years 5 months

Postdoctoral Researcher, Particle Physics and GRID Computing

September 2008 - May 2009 (9 months)

Lecturer in Physics

January 2003 - September 2008 (5 years 9 months)

Education

University of Oxford

DPhil, Particle Physics · (2003 - 2008)

University of Cambridge

MSci/BA, Physics · (1998 - 2002)
