January 2024 - Present (2 years 6 months)
Washington DC-Baltimore Area

Anduril Industries is a defense products company that specializes in advanced autonomous systems.

Navy SEAL Museum - SEAL Xperience
Member Board Of Directors
June 2021 - Present (5 years 1 month)
San Diego, California, United States

The Navy SEAL Museum’s SEAL Xperience honors the extraordinary work, drive, and dedication of Navy SEALs. It is an engaging and educational exhibition on San Diego's waterfront that brings to life the service of SEALs, how they train for the otherwise impossible, and their sacrifices made for our safer world.

The Navy SEAL Xperience immerses visitors into the covert world of Navy SEALs through first person accounts, activated artifacts, engaging digital media, and full-body challenges. These experiences incorporate the core of STEM for students, to inspire the next generation of engineers, mathematicians, scientists, and SEALs; communicating the ideals of not only the Navy SEAL Ethos, but the very ideals that built our nation.

This mission-focused media interactive gives visitors a Navy SEAL challenge, allowing each participant to understand the drive and dedication it takes to be a SEAL.

Highlighting the human side of the SEALs, this exhibit connects visitors with the Americans behind the uniform. Visitors virtually "meet" with SEALs and hear what inspires this elite group, while considering their own values of patriotism and how they too can serve their country.

This exhibit shows visitors how SEALS develop the mental, physical, and technical skills they need to accomplish the impossible. Interactive experiences and immersive media brings training challenges to life and invites visitors to test their own mettle.

Dedicated to historical and contemporary SEAL missions, this exhibit shows the inside stories behind the SEALs' most significant operations, inviting visitors to participate in a mission of their own through virtual-reality media.

This institution reaches people from across the country and shares incredible stories of courage, conviction, and compassion. It demonstrates to generations of Americans that we need not be afraid, and no matter how difficult the path, we are never out of the fight.

ASAPP

2 years 8 months

Chief Revenue Officer

December 2021 - December 2023 (2 years 1 month)

Washington DC-Baltimore Area

Senior Vice President, Industry Sales

May 2021 - December 2021 (8 months)

Washington DC

ASAPP turns artificial intelligence into performance software that empowers people to be their best, so they can provide amazing customer experiences.

ASAPP solves complex, data-rich problems — the kind where there are huge systemic inefficiencies, and where a real solution has a significant economic impact. We address those challenges with artificial intelligence and machine learning products that automate human work, radically improving efficiency and effectiveness.

Today, we apply these capabilities to transform call centers. More than ever before, modern software defines how we experience the world, yet the agents representing your brand everyday to customers are tethered to systems and software developed decades before.

ASAPP is driving the advancement of artificial intelligence, machine learning, speech recognition, robotic process automation, natural language processing and more. Augmenting human activity and automating the world’s workflows to

transform customer experience, the company has offices in New York, Silicon Valley, Buenos Aires, London, and Bozeman.

Rebellion Defense

Chief Revenue Officer

April 2020 - May 2021 (1 year 2 months)

Washington DC

More than ever before software defines how we experience the world. Yet as those wearing the nation’s cloth increasingly depend on software to be distinctive on the battlefield, they are tethered to systems and software developed decades before. Rebellion Defense is a place where brilliant people can work on a mission that matters. Focusing solely on developing the very best software for defense and national security. At a time when it is needed most.

Leveraging extraordinary venture backing, Rebellion has created an environment and a culture attractive to the talent that changed the world from within Silicon Valley’s tech giants. Combining the domain expertise of military leaders and the Defense Digital Service with the technologists driving the future of artificial intelligence, Rebellion is pioneering how modern software enables those defending freedom and democracy.

Pivotal Software, Inc.

6 years 10 months

U.S. Federal Sales

July 2014 - April 2020 (5 years 10 months)
