Top Skills

Exciting News! I am thrilled and deeply honoured to share that I have been highly commended in the CEO of the Year category at the Scottish Professional Awards 2024. This recognition is a testament to the incredible work and dedication of the entire Zortrex team. Leading this innovative company has been an amazing journey, and I am grateful for the support and trust from our clients and partners. Additionally, Zortrex has been named a finalist in the Cloud Awards 2023-2024, highlighting our cutting-edge contributions to cloud technology. This nomination underscores our commitment to pushing the boundaries of what is possible in the field and delivering exceptional solutions to meet the evolving needs of our clients. These recognitions are not just individual achievements but a reflection of the collective effort and passion of the Zortrex family. Together, we are making significant strides in the tech industry, and I am excited about the future innovations we will bring to life. Thank you to the Scottish Professional Awards and the Cloud Awards for these honours. Let's continue to innovate, inspire, and lead the way in cloud technology! #Leadership #Innovation #CloudComputing #Awards #TechIndustry #Zortrex #ScottishProfessionalAwards #CloudAwards2024

Susan Brown

Founder & Chairwoman at Zortrex, AssetChain | Pioneering Tokenised AI Wallets | Gasless AI-Powered Transactions for Institutional Finance

Greater Edinburgh Area

Summary

I founded Zortrex in 2017 with a clear vision - As a seasoned professional in data security, I lead innovative initiatives at Zortrex to revolutionise how organisations protect their sensitive information. With a focus on advanced tokenisation and encryption technologies, my work ensures that data remains secure, compliant, and resilient against evolving cyber threats.

At Zortrex, I am proud to spearhead the development and implementation of the ZortrexCube AI Network. This groundbreaking solution integrates seamlessly with existing systems, offering unparalleled security and advanced analytics capabilities. Our non-mathematical tokenisation and keyless encryption methods are redefining data protection standards, providing robust security without compromising usability or scalability.

With extensive experience in cloud security, AI integration, and data management, I am dedicated to helping organisations navigate the complexities of the digital landscape confidently. My commitment to excellence and continuous innovation drives me to foster a culture of security and compliance, ensuring that our clients' data is always protected.

Experience

Asset Chain

Founder & Chairwoman at AssetChain

October 2018 - Present (6 years 11 months)

Edinburgh, Scotland, United Kingdom

AssetChain is revolutionising AI-driven financial security with the world’s first tokenised AI wallet infrastructure—enabling gasless, auditable, and secure transactions for institutions.

Clear about the figures

Financial institutions, central banks, and asset managers face an urgent challenge: How do you harness the power of AI and blockchain while maintaining full compliance, security, and control?

At AssetChain, we provide a decentralised, AI-powered execution framework that ensures:
✓# Gasless or ultra-low-cost transactions through Layer 2 scaling, off-chain processing, and tokenised execution
✓# Non-mathematical, vaultless tokenisation—removing the need for encryption, keys, hashing, or salts
✓# AI wallets that operate autonomously—but always within strict governance rules
✓# Full audit trails—every decision is logged, every action is accountable
✓# Enterprise-grade security—no sensitive data leaves your environment

AssetChain is bridging the gap between digital and chain-based finance, ensuring that AI operates transparently, securely, and efficiently.

We don’t want your data. We protect your world while you control it.

The future of AI-driven financial security is here. The future is AssetChain.
