Marc Warner

CEO at Faculty, CTO at Accenture
Greater London, England, United Kingdom

Summary

Sorry, I'm afraid I can no longer reply to the all messages on Linkedin.

Experience

Accenture
Chief Technology Officer
March 2026 - Present (5 months)

Faculty
CEO
September 2015 - Present (10 years 11 months)
London, United Kingdom

Faculty (previously ASI Data Science) helps organisations to make Artificial Intelligence real.

We think that Artificial Intelligence is the most important technology of our age, but it is only valuable when it is applied in the real world - enhancing products, improving services, and saving lives.

To make AI real we help organisations work out what they could do with AI, and then help them to do it. This requires three things: the right strategy, the right skills, and the right software. We help with all three.

Check us out here: www.faculty.ai

Harvard University
Research Fellow
June 2012 - August 2015 (3 years 3 months)
Cambridge, MA

We developed 3D magnetic resonance imaging with sub-nanometer spatial resolution. This was part of a wider effort to exploit nitrogen vacancy centres for quantum enhanced sensing.

London Centre for Nanotechnology

5 years 8 months

Researcher

January 2011 - May 2012 (1 year 5 months)

I continued the work of my PhD, attempting to make quantum gates out of single molecules.

PhD Student

October 2006 - July 2011 (4 years 10 months)

My PhD was in Quantum Computing - using some of the weirder aspects of quantum mechanics to build incredibly powerful computers. The main result was published in Nature and covered in the New York Times, Wired, etc.
