Adam Hofmann

Helping CEOs and Executive teams build 12-month AI value blueprints | First value in 6 weeks | Strategy plus build, one team | Partner @Elixirr
Seattle, Washington, United States

Summary

Executives don’t struggle with AI because of the technology.

They struggle because they can’t yet see the future clearly enough to lead their organization into it or because their AI efforts aren’t producing the impact they expected.

That’s where I come in.
I partner with CEOs, executives, and transformation leaders to:

• See what others can’t — the real implications of AI for their business
• Articulate a compelling, actionable vision for the future
• Design AI operating models that actually work in the real world
• Build the prototypes, systems, and programs that bring that vision to life
• Accelerate the transformation so outcomes show up faster

My work combines deep technical understanding with intuitive clarity. I make the complex simple, the ambiguous actionable, and the future feel both exciting and achievable.

I specialize in:

-Executive AI visioning + storytelling
-AI strategy and enterprise operating models
-AI transformation roadmaps
-Identifying high-value use cases tied directly to business outcomes
-Designing and deploying scalable LLM + RAG solutions
-Working inside high-stakes, ambiguous environments where clarity is missing

Across industries : banking, insurance, healthcare, retail, CPG, energy — I help leaders and their teams see the next era of their business and evolve into it.

If you're looking for an advisor who brings:

A clear point of view,
-The ability to translate vision into execution,
-A way of connecting dots others don’t see,
-And a collaborative “with you, not for you” approach…

Let’s talk.

This is the biggest transformation of our lifetime — and my mission is to help organizations move into it with confidence, clarity, and momentum.

Experience

Elixirr
Partner, AI & People Transformation
September 2023 - Present (2 years 10 months)
Seattle, WA

I partner with global executives to define and execute their AI transformation strategies. My work focuses on helping organizations:

Establish a clear and compelling AI vision
Build AI operating models that scale
Translate complex AI concepts into simple, actionable strategies
Identify and prioritize high-value use cases with measurable impact
Rapidly prototype, pilot, and deploy LLM-powered solutions
Accelerate adoption, capability-building, and organizational readiness

Recent outcomes include:

Reimagining enterprise processes through AI-first design
Establishing long-term AI transformation roadmaps and capability models
Coaching executives to lead AI confidently through uncertainty

95% reduction in prospecting time for a $5B US-based telecommunications company.
92% reduction in research-based tasks for underwriters at a $10B UK-based global insurer.
94% reduction in ESG reporting research and analysis at a global financial service firm.

I also lead Elixirr's internal AI transformation, shaping how the firm uses AI to enhance delivery, operations, and client impact.Here are a few we're proud of...

Responsum AI
Co-Founder, Chief AI Platform and Customer Officer
December 2020 - September 2023 (2 years 10 months)
Austin, Texas Metropolitan Area

Acquired by Elixirr International in September 2023

Our mission is to enable people to harness the power of technology to live to their full potential.

Responsum is a generative AI acceleration platform reshaping how companies prototype, deploy, and scale high-impact solutions. We're at the forefront of integrating the latest advances in machine learning, large language models, and other AI disciplines.

Our platform is used worldwide by leading companies across insurance, banking, financial services, energy, government, and beyond. We strive to drive measurable business value, fueling growth and innovation through rapid prototyping and effective generative AI implementation.

Some use cases we're experimenting with right now...

- Underwriting Agent to support new underwriters.
- Commercial Banker Agent to streamline day-to-day work, improve customer relations, and overall performance.
- Data Migration Agent to help a large bank transition to new data infrastructure, streamline documentation, and improve data access.
- Knowledge Agent to access company-wide information such as FAQs, procedures, and best practices.

- ESG Analysis Agent to proactively analyze company performance, gather missing information, and build reports

Singularity University

4 years 10 months

Vice President Marketing and Community

April 2018 - September 2020 (2 years 6 months)

Remote

Global Marketing and Brand | Global Events | Virtual Events and Conferences | Community Management and Growth | Digital Innovation | Growth Marketing | Sales Development | Customer Support | Corporate Communications | Startup Ecosystem Development and Support

Director, Growth & Digital Innovation

December 2016 - April 2018 (1 year 5 months)

San Francisco Bay Area

Built a new team and function responsible for surfacing customer insights and turning them into testable hypotheses that can lead to the creation of new digital products. We launched experiments that explored online education, memberships, and talent marketplaces as a way to expand the reach and outcomes of Singularity University around the world. These resulted in...

- Launched SU's online courses business that was scaled to over $1M in revenue
- Launched SU's first membership products to a community of more than 400k people
- Launched an internal tool to connect program managers with experts more easily

Product Marketing Manager

December 2015 - December 2016 (1 year 1 month)

Mountain View

Created and led the function responsible for product marketing for Singularity University's suite of products. This includes both enterprise and consumer audiences across a variety of products like a startup accelerator, open enrollment executive programs, corporate innovation services, and more. Product marketing at SU includes:

- Marketing campaign development and optimization
- Customer analysis
- Website management and optimization
- Marketing automation

- Email marketing
- Messaging
- Branding
- Sales enablement and acceleration

Assist Inc
Product, Community, & Growth (Founding Team)
January 2015 - September 2015 (9 months)

Joined Assist to lead all efforts dealing with our community of locals. I was responsible for...

- Community Building
- Supply acquisition
- Demand Marketing
- Fundraising
- Operations

After our early iterations, we decided to build out the core messaging platform to act as a service layer to deploy bots on other platforms. Assist is now the business messaging leader and was recently acquired.

GetAccepted
Advisor
February 2014 - June 2015 (1 year 5 months)

(Acquired by The Princeton Review)

We believe that every student should have access to high-quality college guidance.

GetAccepted connects high school students and their families with former admissions officers from top-tier schools such as Harvard, Princeton, Yale, Stanford and their equivalents to give each student an unfair advantage in the admissions process. We've analyzed the current private consulting model and have found some key ways to improve the process, streamline the operations, provide more value and decrease the cost.

Ask me how we can help your student GetAccepted!

SmartShoot
Director Marketplace Growth

April 2014 - January 2015 (10 months)

Find and hire talented Photographers and Videographers.

At SmartShoot I was tasked with expanding the company's photographer and videographer community while also driving new demand into the marketplace. In a short period of time, I led the overhaul of the discovery portion of the website to increase the number of jobs posted and creatives discovered.

- Created and implemented a Community Management strategy to strengthen the network and increase it's size.
- Researched and implemented a long term SEO strategy to drive discovery and job creation
- Optimized several internal processes to be more efficient in sales and client services
- Worked with the CEO and COO to set company goals and metrics
- Implemented analytics system and reporting
- Optimized the customer support process by strategically adding offshore resources

Wishbone.org

Strategy Consultant

November 2013 - March 2014 (5 months)

Worked with the Wishbone.org team to organize current business processes and develop strategies to support the desired goals for 2014 and beyond. Our focus was on analyzing the key stakeholders (teachers, students, programs, mentors) and then doing some customer development to see where the model holds up and where it might need help. We also looked at foundation partnerships, corporate development, direct marketing and fundraising techniques to better support organization growth.

Active Mind Technology Inc

Consultant

June 2013 - August 2013 (3 months)

Consulted on project/program management, marketing, social media, event marketing and key business relationships.

Zaarly, Inc

Director of Growth & Operations

March 2011 - April 2013 (2 years 2 months)

Zaarly builds and grows local marketplaces that enable buyers to find uniquely talented people. Need a handyman? Check out their storefront and buy directly from them. Looking for that perfect custom made birthday cake? We've got you covered as well. Our mission is to enable more people to do what they love.

As Director of Operations I lead a team focused on finding, enabling and growing our community of sellers. We acquire sellers through many channels include direct "sales", digital marketing and organic referrals. We create and curate incredible user generated content. Then we polish it off with stunning photography and editorial review to make sure each storefront can stand on its own.

- P2P commerce
- Marketplace building
- Sales team management
- Content creation and editing
- Photography
- User acquisition
- Editorial Review
- Digital marketing

If you're an expert at any of the above, send me a note. We're always looking for amazingly talented people to join our growing team and contribute immediately.

Adam Dean Photography
Photographer
August 2007 - April 2012 (4 years 9 months)

Started Adam Dean Photography while in college to pursue my passion as well as make some money while attending college. Specializes in senior portraits and other portrait work. Now offer work from my personal trips around the world.

Kauffman Foundation
Program Manager - Kauffman Labs
July 2010 - March 2011 (9 months)
Kauffman Labs

Kauffman Labs takes aspiring entrepreneurs and turns them in to founders of scalable high growth companies that will change the face of their industries. We run programs in different market verticals such as education, food,

health services, mass media, etc. This improves our ability to build a strong mentor network with deep domain knowledge that will ultimately enable our entrepreneurs to be successful.

My role is to research and analyze future markets and program and begin the process of network development. This includes community outreach, attending conferences, analytical research and mentoring. I also work with entrepreneurs to discuss market research, market selection and other entrepreneurial topics.

Deloitte
Business Technology Analyst
March 2009 - July 2010 (1 year 5 months)

Startup Weekend
Volunteer
2010 - 2010 (less than a year)

University of Kansas
Project Manager
May 2008 - May 2009 (1 year 1 month)

Manage students teams in an effort to spur economic development in underdeveloped and economically distressed areas of Kansas

Lawrence Journal World
Freelance Photographer
November 2007 - October 2008 (1 year)

Shooting for Manhattan Magazine

MMG Worldwide
Account Management Intern
May 2008 - August 2008 (4 months)

St. Luke's Hospital
PACS Administrative Intern
May 2007 - August 2007 (4 months)

Monitor and Maintain PACS system for the imaging center

Austin Ventures
Office Intern

May 2006 - October 2006 (6 months)

Daily office tasks and brain picking of Investment Partners

Education

The University of Kansas

BA, Marketing, Psychology and Entrepreneurship

The University of Texas at Austin
