# Jon Gosden

Head of Forward Deployed Engineering, CHAOS Industries | ex-Palantir
London, England, United Kingdom

## Summary

Experienced analytics expert, problem solver, builder and innovator with deep customer expertise leading the implementation and development of Palantir solutions in a variety of customers primarily within defence and security.  Passionate about seeing data and AI being used to solve impactful problems facing society.

## Experience

### CHAOS Industries

Forward Deployed Engineer
October 2023 - Present (2 years 10 months)
London, England, United Kingdom

Chaos is a top tier technology company that innovates on turning deep tech and the latest science into next generation products to solve the most difficult problems in aerospace, defense and critical commercial industry.

### Palantir Technologies

Deployment Strategist
March 2017 - October 2023 (6 years 8 months)
London, United Kingdom

At Palantir I have undertaken a wide variety of roles from leading the implementation of our platform at large organisations to developing entirely new products and leading business development efforts.  I now primarily focus on innovation and new product areas and have particular strengths in identifying and driving new product opportunities and developing these with customers and product teams.
