Paul Logan AIEWF

Building the adaptation layer for AI agents | ex-NVIDIA
San Francisco, California, United States

Summary

I build infrastructure that makes AI agents better at the work that matters. My focus is adaptation: per-agent specialist models that learn an environment and keep improving inside it. The bet is simple. General models plateau on hard, specific problems. Adapted ones don't. Before this I led go-to-market for Enterprise Game Development at NVIDIA, taking the thesis behind this company from idea to over a billion in pipeline. Building now. More soon.

Experience

Stealth Startup
Co-founder, CEO
June 2026 - Present (1 month)

NVIDIA
1 year 6 months

Senior Product Manager: Enterprise Game Development
February 2026 - June 2026 (5 months)

Led product and go to market for NVIDIA's enterprise game development vertical, selling AI solutions and hardware into the largest game development organizations on the planet.

Senior Product Marketing Manager: Enterprise Game Development
January 2025 - February 2026 (1 year 2 months)
San Francisco Bay Area

NVIDIA
Industry Strategic Marketing Intern
May 2024 - August 2024 (4 months)
Santa Clara, California, United States

At NVIDIA, I focused on promoting Generative AI and enterprise products. Key achievements include organizing "Gen AI Day" and "Gen AI Connect" at SIGGRAPH 2024, drawing over 1,100 attendees and significantly boosting engagement. Led user research and developed partnerships to enhance

NVIDIA's presence in the AEC sector. Contributed to content creation and strategic marketing efforts that elevated the company's profile in AI and tech communities.

TitanGen AI
Product Management Intern
June 2023 - August 2023 (3 months)
Berkeley, California, United States

Titangen is setting out to optimize market segmentation, reach, and representation in mobile gaming using Generative AI. Created publishing pipeline to release multiple games in a week through ios and Google Play stores. User interviews & testing to optimize game mechanics and increase game stickiness & user retention.

ZHI
Founder
September 2021 - August 2023 (2 years)
San Francisco Bay Area

ZHI is a generative AI implementation consultant that helps customers realize their full potential with large language and image diffusion models that are fine-tuned to their use-case. We support every step of the process, from dataset specification and collection to hosting and user interfaces. Past projects include illustrating children's books with AI, emergent storytelling through computer agents in video games, and high-resolution woodgrain generation for artitificial wood flooring.

Acryl Data
Founding Developer Relations Lead
September 2022 - June 2023 (10 months)
San Francisco Bay Area

Managing community support, documentation, and workshops/events for DataHub, the most popular open source data catalog.

Slack
Developer Content Systems Specialist
June 2019 - April 2021 (1 year 11 months)
San Francisco Bay Area

Product owner of api.slack.com backend. Enabled and supported technical content writers in serving information to the developer community by scoping and delivering functional features, improving workflow for technical writers, and smooth creator acquisition through documentation.

Postman

Developer Advocate

April 2018 - May 2019 (1 year 2 months)

San Francisco Bay Area

Employee #18 in US office. Built developer community through meetups; 10+ conferences as floor staff, technical ambassador, and speaker. Thought leadership and education via webinars, blogs, and other technical content.

Silverline

Software Engineer

July 2016 - March 2018 (1 year 9 months)

Greater New York City Area

Cross-functional Team Leadership: Coded & deployed 11 enterprise solutions & integrations as primary developer. Led 3 Salesforce Implementations as sole Technical Architect. Agile technical project management of offshore development teams of 3+ in addition to client product owners and non-technical teammates.

Education

University of California, Berkeley, Haas School of Business

Master of Business Administration - MBA · (August 2023 - May 2025)

Indiana University Bloomington

Bachelor of Science, Computer Science · (2011 - 2016)

University of Oxford

Visiting Student, St Anne's College, Computer Science · (2014 - 2015)
