Общие сведения

Experienced Delivery Manager with over 14 years of expertise in managing digital and IT projects, ensuring seamless delivery, resource optimization, and alignment with business goals. I specialize in driving operational efficiency through the integration of cutting-edge technologies, process improvement, and strategic planning. With a proven track record of leading cross-functional teams, I excel in fostering collaboration across departments, enabling innovation, and delivering high-quality results on time and within budget.

My core strength lies in my ability to bridge the gap between technical and business needs, ensuring that all stakeholders are aligned and focused on project objectives. I am proficient in various project management methodologies, including Agile and Waterfall, and have successfully delivered numerous large-scale projects, from concept development to final implementation. By leveraging my strong communication and leadership skills, I consistently build and maintain productive relationships with clients, vendors, and internal teams, ensuring that expectations are met and exceeded.

I am highly adaptable and skilled at managing risk, resolving escalations, and driving continuous improvement across projects. My technical knowledge, combined with my business acumen, allows me to make informed decisions that enhance project performance and foster long-term client satisfaction. Additionally, I have a deep understanding of software development lifecycles, IT strategy, and digital transformation, which positions me as a valuable asset in driving innovation and efficiency for any organization.

Key skills include project and portfolio management, resource allocation, risk management, client negotiations, stakeholder engagement, and process optimization. My passion for delivering

excellence in every project, combined with my dedication to fostering collaborative team environments, ensures that I consistently contribute to the growth and success of the organizations I work with.

I am always eager to explore new opportunities where I can apply my expertise to support business development, streamline operations, and lead teams to deliver exceptional results in fast-paced, dynamic environments.

Опыт работы

Customertimes
Immersive Technologies Practices Leader
ноября 2023 - Present (1 год 8 месяцев)

At Customertimes, as the Immersive Technologies Practices Leader, I am responsible for:

• Leading the development and implementation of immersive technology solutions (AR/VR/MR), ensuring they align with client objectives and industry best practices.

• Driving the strategic direction of our XR practices, collaborating with cross-functional teams to deliver innovative and impactful immersive experiences.

• Cultivating strategic partnerships and managing client relationships, positioning Customertimes as a leader in the immersive technology space.

• Overseeing a team of developers, designers, and creative professionals, fostering a culture of innovation and excellence in XR project delivery.

• Staying at the forefront of emerging XR technologies and trends, integrating them into our solutions to maintain a competitive edge.

• Managing the full project lifecycle, from conceptualization to deployment, ensuring projects are delivered on time, within scope, and to the highest quality standards.

• Collaborating with senior leadership to align immersive technology initiatives with overall company strategy and objectives.

Nexity Network
Head of Research & Production
марта 2022 - Present (3 года 4 месяца)
Romania

At Nexity Network, my role as Head of Research and Production was both challenging and rewarding. My responsibilities included:

• Cultivated strategic partnerships and navigated complex negotiations with enterprise clients, ensuring alignment with business objectives and technological capabilities.
• Established and maintained robust professional relationships with key industry vendors, including Samsung, HP, Lenovo, and Facebook, enhancing our technological ecosystem and collaborative opportunities.
• Led the R&D department and a dedicated team of software architects, driving innovation and excellence in VR/AR development.
• Managed the progress of diverse projects integrating a wide array of technologies, from C# for Unity in PC, AR, VR, and Mobile environments, to C/C++ for Unreal in VR and PC settings, ensuring adaptability and cutting-edge solutions.
• Supervised the CGI and creative teams across various projects, guiding them in modeling, sculpting, texturing, VFX, compositing, video production, animation, concept art, and UI/UX design, utilizing industry-standard tools and software.
• Conceptualized innovative solutions, developed comprehensive strategies and Statements of Work (SOWs), estimated required resources, and assembled high-performing delivery teams to execute our vision.
• Successfully coordinated and delivered multiple large-scale projects, ensuring they were completed on time, within budget, and to the highest standards of quality, while maintaining oversight of budgeting, design, and technological support.

Cosmic Wire Inc
Technician Director
мая 2023 - апреля 2024 (1 год)

At Cosmic Wire Inc, I took on the pivotal role of Technician Director, where I was entrusted with the responsibility of shaping the technical landscape of the organization. My duties encompassed:
• Directed the integration of state-of-the-art technologies and innovative processes to enhance the efficiency and
effectiveness of product development in the metaverse and Web3/NFT sectors.
• Collaborated with cross-functional teams, providing project management and technical leadership to achieve successful
deliverables.
• Played a critical role in strategic planning and decision-making, ensuring alignment of project execution with company
objectives and industry standards.

• Fostered a culture of continuous improvement, encouraging team innovation and the adoption of new methodologies.
• Oversaw and guided a team of professionals, promoting skill development and knowledge sharing across the project
lifecycle.
• Ensured the highest quality and performance standards in all project operations, implementing effective quality
assurance measures.
• Built and maintained strong relationships with stakeholders, ensuring transparent communication and project alignment.
• Remained informed on industry trends and technologies, positioning the company as a leader in the metaverse and
Web3/NFT space.

V-Art
Chief Creative Officer
марта 2022 - июня 2023 (1 год 4 месяца)
New York, United States

At V-Art, as the Chief Creative Officer, I was at the helm of the company's creative vision. My role was multifaceted and included:
• Led the project management and delivery of virtual exhibitions and cross-platform digital solutions, including a VR-enabled virtual museum accessible via mobile and browser platforms.
• Managed the implementation of emerging technologies, such as Web3 and NFT protocols, aligning them with the company’s strategic goals and operational requirements.
• Collaborated with senior executives and key stakeholders to ensure that project outcomes met business objectives and delivered value across all departments.
• Directed and coordinated the efforts of multiple teams, ensuring on-time delivery, resource allocation, and adherence to quality standards throughout the project lifecycle.
• Facilitated strong relationships with partners, stakeholders, and investors, contributing to business growth and the successful execution of innovative projects.
• Oversaw the operational management of creative and technical teams, optimizing workflows and enhancing overall project efficiency.

Skywell Software
Head of R&D in VR\AR Department

сентября 2018 - марта 2022 (3 года 7 месяцев)
Kiev Region, Ukraine

At Skywell Software, I played a crucial role as the Head of R&D in the VR/AR Department. My duties encompassed:
• Conduct implementation of advanced technologies, identifying key opportunities for investment and optimizing production processes.
• Worked closely with C-level executives to align production strategies with the company's overall business objectives, ensuring consistent delivery of high-impact projects.
• Acted as the primary interface between technical teams, creative departments, and business units, facilitating effective communication and coordination.
• Played a key role in developing and maintaining strategic relationships with stakeholders and investors, driving sustainable business growth.
• Led the establishment and oversight of cross-functional teams within the Creative and Immersive departments, ensuring project milestones were met on time and within scope.
• Supervised the daily operations of both internal and external teams, optimizing workflows and ensuring adherence to project timelines and quality standards.
• Directed the development of a comprehensive digital ecosystem, including mobile, VR, and web-based solutions, enhancing the company's competitive edge in the market.

PhotoBloom AR
Technical Advisor
февраля 2018 - февраля 2022 (4 года 1 месяц)
United States

At PhotoBloom AR, I served as a Technical Advisor, where I was responsible for:

• Providing technical guidance and expertise to drive project success and ensure that all technical endeavors were in line with industry best practices.
• Collaborating with cross-functional teams, ensuring alignment with technical requirements, and ensuring that projects were executed seamlessly.
• Advising on best practices, industry standards, and the latest technological advancements to optimize product development and ensure that the company was always ahead of the curve.
• Managing key client relationships, understanding their technical needs, providing solutions, and ensuring their satisfaction.

VRDC
R&D Director
ноября 2017 - сентября 2018 (11 месяцев)
Kiev Region, Ukraine

At VRDC Inc., my role as R&D Director was both challenging and rewarding. My responsibilities included:

• Directing R&D strategies, ensuring they were in line with company objectives and the latest industry trends.
• Managing a diverse team of developers and CGI content creators, fostering a culture of innovation, continuous learning, and efficiency.
• Overseeing the deployment, monitoring, and optimization of all R&D projects, ensuring that they were in line with the company's goals and objectives.
• Collaborating cross-functionally with various departments, ensuring that R&D findings and innovations were integrated into business strategies and operations.
• Engaging in continuous professional development, attending seminars, workshops, and conferences to stay updated with the latest in the R&D world.

VRED
LECTURE and LEAD 3D ARTIST
июня 2015 - ноября 2017 (2 года 6 месяцев)
Kiev Region, Ukraine

At VRED, I took on the dual role of LECTURE and LEAD 3D ARTIST. My duties encompassed:

- Delivering lectures, training sessions, and workshops to budding 3D generalists, ensuring that they were equipped with the latest skills and knowledge.
- Directing the development of new pipelines, driving revenue, and company growth.
- Managing the implementation of pipeline integration workflows, ensuring that projects
