JJ Linser

SwarmInt CoFounder | Tactical Robotics Warfare
Arlington, Virginia, United States

Summary

Driven technology and innovation leader with expertise in data engineering, machine/deep learning, autonomous systems, and computer vision. Mission focused with nearly 15 years experience developing and delivering mission critical components on the tactical and enterprise level to DoD/IC.

Experience

SwarmInt LLC
CoFounder & CTO
March 2023 - Present (3 years 4 months)
Arlington, Virginia, United States

George Mason University
Adjunct Professor
August 2022 - Present (3 years 11 months)

Lecturer at GMU Computer Science Department.

Elastic
Senior Solutions Architect
September 2021 - May 2023 (1 year 9 months)
Arlington, Virginia, United States

Leidos
Senior Full-Stack Data Engineer / Solutions Architect
May 2019 - September 2021 (2 years 5 months)

Leidos Innovation Center (LiNC). D3P, IRAD.

ATA, LLC
Data Scientist / Technical Lead
February 2019 - May 2019 (4 months)
Virginia

General Dynamics Information Technology

Software Developer
February 2018 - January 2019 (1 year)
United Kingdom

Responsible for fast-pace development of custom software in an analyst embedded environment to meet critical intelligence mission needs for EUCOM at the Joint Analytic Center (JAC) at RAF Molesworth. Focused developing microservice architecture and services, as well as applying machine learning to meet mission challenges.

HumanGeo Group
Technologist
September 2013 - February 2018 (4 years 6 months)
Arlington, Virginia

(Acquired by Radiant, Digital Globe and MDA -- Now Maxar Technologies). Full-stack software developer with a focus in data analytics and machine learning supporting various DoD and intelligence customers. Recurring tasks include developing custom capabilities and algorithms for event detection, anomaly detection, predictive analytics, entity resolution and network analysis. Experience managing, processing, enriching, exploiting and visualizing large datasets using open source software, from Apache Spark to Hadoop to ELK. Proud alumni of the one and only "Nerd Brigade".

Lockheed Martin
Software Engineering Asc
May 2013 - September 2013 (5 months)
Herndon, Virginia

Lockheed Martin
Software Engineering Intern
June 2012 - August 2012 (3 months)

-Provided reach back mission support for US Army units using Persistent Threat Detection System (PTDs)
-Developed, implemented, and tested C++ applications for PTDs
-Developed and conducted software testing plans for PTDs software
-Assisted in developing and planning mission configuration tools

Lockheed Martin
Software Engineering Intern
June 2011 - August 2011 (3 months)
Akron, Ohio

-Designed, developed and implemented Ethernet Server capable of communicating with VME Bus
-Assisted in Graphical User Interface (GUI) development
-Assisted in systems engineering tasks
-Gained experience with Infrared Counter Measures (IRCM)

Lockheed Martin
Mechanical Engineering Intern
October 2010 - December 2010 (3 months)
Lufkin, Texas

-Designed, developed and implemented automated programs for the production of electronics for Patriot Advanced Capability (PAC 3) Missile, Terminal High Altitude Area Defense (THAAD) system and Guided Rocket System (GMLRS)

AK Steel
Mechanical Engineering Intern
June 2010 - September 2010 (4 months)

Education

George Mason University
Doctor of Philosophy - PhD, Computational Science and Informatics · (2020 - 2027)

George Mason University
Master of Science (M.S.), Data Analytics Engineering · (2015 - 2019)

Ohio University
Bachelor of Science (B.S.), Computer Science · (2008 - 2013)
