Jack Linkous

Chief Executive Officer at Swarmint LLC
Washington DC-Baltimore Area

Summary

Experienced Full Stack Software Engineer and Physicist with a demonstrated history of working in the defense industry. Skilled in Python, Jenkins, AWS, Nexus, Docker, REST, Application Design, Statistical Data Analysis, Research and Development (R&D) and Data.

Experience

SwarmInt LLC
Chief Executive Officer
March 2023 - Present (3 years 4 months)

Leidos
2 years 8 months

Software Engineering Manager
March 2022 - September 2023 (1 year 7 months)
Arlington, Virginia, United States

Full-stack Developer
February 2021 - February 2022 (1 year 1 month)
United States

L2 Platforms LLC
Chief Executive Officer
February 2018 - February 2022 (4 years 1 month)
Arlington, Virginia, United States

Accenture Federal Services
Analytics and AI Innovation Architect
February 2019 - January 2021 (2 years)
Washington D.C. Metro Area

Self Employed
Data Engineer

October 2018 - February 2019 (5 months)
Washington D.C. Metro Area

Berkeley Applied Analytics
Staff Engineer
February 2017 - September 2018 (1 year 8 months)
Arlington, Virginia

Provided software development and data analysis for the DARPA SIGMA project which assesses nuclear threats using a network of mobile and static radiation detectors
Design thin-client and browser based analysis tools (Python) for nuclear forensic purposes
Developed and implemented characterization processes for radiation detectors in preparation for field deployment
Diagnosed and repaired radiation detectors presenting errors in the field

CB&I AREVA MOX Services, LLC
Subject Matter Expert / Measurement Engineer
November 2015 - January 2017 (1 year 3 months)
Aiken, SC

Develops MC&A measurement control plan and ensures its compliance with applicable regulatory project requirements

Develops and maintains bulk measurements methodology

Develops and maintains destructive and non-destructive assay (NDA) techniques and/or procedures

North Carolina State University
Graduate Research Assistant
August 2012 - October 2015 (3 years 3 months)
Raleigh, NC

Develop experimental coded aperture imaging techniques and data analysis tools to investigate and distinguish highly multiplying neutron sources from weakly multiplying neutron sources.

Supervise laboratory and undergraduate researchers in the laboratory.

Lawrence Livermore National Laboratory
Graduate Research Assistant
May 2012 - July 2014 (2 years 3 months)

Livermore, California

Develop post processing algorithms to increase throughput and of large data systems in MATLAB

University of Michigan
Researcher
April 2011 - May 2012 (1 year 2 months)

Develop and test algorithms to increase accuracy when distinguishing low energy neutron and gamma-ray particles in MATLAB

Sandia National Laboratories
Graduate Intern
May 2011 - August 2011 (4 months)

Assist in writing a MATLAB simulation to model a nuclear fuel reprocessing plant

Los Alamos National Laboratory
Manufacturing Student
May 2010 - November 2010 (7 months)

Aided in the implementation of Oracle r12 into the plutonium facility as well as research the details of implementing an electronic shop package for the plutonium facility

University of Michigan
11 months

Infrastructure and IT Management
June 2009 - April 2010 (11 months)

Update and upgrade linux, macintosh, and windows systems

Inventory and set up a computer directory for the library

Fix general maintenance and computer related problems

Research Assistant August
August 2009 - September 2009 (2 months)

Designed an optical table

Perform a spectral analysis to acquire a black-body curve

Cleaned and organized the laboratory

Woodbrooke Swim Club
Lifeguard
October 2005 - October 2006 (1 year 1 month)

Managed the Chemicals of the Pool

Performed general maintenance on the Pool and Facilities

Guarded the Pool

Education

University of Michigan

M.S.E., Nuclear Engineering and Radiological Sciences · (2011 - 2012)

University of Michigan

B.S.E, Nuclear Engineering · (2007 - 2011)

Farmington High School

· (2003 - 2007)
