Frederick "Trey" Coleman

Chief Product Officer @ Raft
United States

Summary

Passionate C2 and data zealot with 24 years' experience using legacy systems. Today, I'm in the business of building world-class, cutting edge C2 and AI products that I wish I had when I was in uniform, so that our warfighters can make better decisions faster than our enemies.

Experience

Raft
Chief Product Officer
October 2023 - Present (2 years 9 months)

505th Command and Control Wing
Commander
July 2021 - August 2023 (2 years 2 months)
Fort Walton Beach, Florida, United States

Led over 1100 personnel across 14 geographically separated locations. Executed a $160M budget. Responsible for Air Force Command and Control (C2) operational testing, tactics development, large scale exercises, and operational C2 formal training.

- Built Air Force’s Advanced Battle Management Systems (ABMS) Battle Lab, to include multi-year Authority to Operate (ATO).
- Acquired Air Combat Command’s Combined Air Operations Center – Experimental (CAOC-X) into Wing organization.
- Designed and executed a rehearsal of concept for Pacific Air Command; identified C2 gaps and seams in war plans.

9th Air Force (AFCENT)
Commander, 609th Air Operations Center
June 2019 - July 2021 (2 years 2 months)
Qatar

Led over 800 personnel in planning, executing, and assessing all air operations in the Middle East.

- Modernized CAOC systems; adopted Kessel Run; transitioned to cloud-based data to enable distributed operations.
- Reorganized footprint to create an organizational presence in the Continental United States; transitioned ground-based tactical control operations from overseas to state-side; acquired new squadron.

U. S. Central Command (USCENTCOM)
Levant Branch Chief
June 2016 - June 2019 (3 years 1 month)
Tampa, Florida

Led staff team of 22 assigned personnel plus multiple cross-functional teams of hundreds of interagency and coalition personnel to develop plans to defeat ISIS in Iraq/Syria and increase stability across the Levant region from Israel to Iraq.

- Built DoD, interagency, and coalition teams to write and maintain the Coalition Military Campaign Plan to Defeat ISIS; designed Phase III transition to Syria; negotiated terms for security in the town of Manbij, Syria.
- Briefed and received approval from senior-most levels, including U.S. SECDEF and Chairman, Joint Chiefs of Staff.

Pacific Air Forces
Commander & Director of Operations, 961st Airborne Air Control Squadron (AWACS)
July 2012 - June 2015 (3 years)
Kadena Air Base, Okinawa, Japan

Led squadron of 150+ personnel to conduct flying operations in the East China Sea and elsewhere throughout the Pacific.

- Reshaped flying hour program and maintenance contracts to decrease average sortie duration, increase sortie count, and enable face-to-face debriefs with fighter squadrons during every sortie.
- Remodeled $20M+ facilities; re-equipped aircraft to enable improved satellite communications.

3rd Wing
Executive Officer
May 2009 - June 2010 (1 year 2 months)
Elmendorf Air Force Base
