Alex Frew

Valinor Dispatch Growth Lead
Cookeville, Tennessee, United States

Summary

Experience

Valinor
Growth lead
April 2026 - Present (4 months)
Cookeville, TN

Growth/operations lead for Valinor Dispatch.

Air Force Special Operations Command
9 years 6 months

Operations Manager
June 2023 - June 2025 (2 years 1 month)
Aberdeen, North Carolina, United States

Oversaw the planning, coordination, and quality assurance of all training requests, ensuring compliance with risk management protocols and organizational policies. Conducted risk assessments for high-risk training, drafted approval documents for senior leadership, and ensured all necessary approvals were obtained. Maintained training records, updated calendars, and archived documentation for future review. Submitted after-action reports to capture lessons learned and improve future training efficiency. Additionally, tracked and updated global personnel locations for accountability, ensuring accurate reporting and operational readiness.

Aviation Manager
November 2018 - May 2023 (4 years 7 months)
Aberdeen, North Carolina, United States

Advised senior leadership on the strategic use of air assets, conducting mission planning and capability briefings to ensure optimal resource utilization. Led the coordination of multiple aircraft for dynamic operations, trained U.S. and foreign personnel, and developed risk mitigation strategies to enhance mission effectiveness and safety.

Airfield Operations Specialist
January 2016 - October 2018 (2 years 10 months)
Hurlburt Field, Florida, United States

Conducted site analysis and feasibility assessments for helicopter and fixed-wing aircraft landing zones, ensuring safe and efficient airfield operations. Led a team in establishing and managing temporary airfields, provided air traffic control for takeoff and landing, and coordinated all clearance and deconfliction to maintain operational safety.

6 years 8 months

Lead Project Manager
June 2023 - June 2025 (2 years 1 month)

Planned and executed multiple concurrent projects with timelines ranging from weeks to multi-year efforts.

Coordinated cross-functional teams (technical, operations, logistics, leadership) to meet defined objectives.

Developed project schedules, milestones, and deliverables while managing risk and change requests.

Provided clear stakeholder updates and decision support using dashboards and concise reporting.

Improved execution efficiency by standardizing workflows, communication cadences, and documentation.

Operations Project Lead
November 2018 - June 2023 (4 years 8 months)

Led large, multidisciplinary teams in planning and executing complex operations with zero-failure tolerance.

Managed resources, schedules, and operational constraints across multiple stakeholders and organizations.

Applied structured planning, risk mitigation, and after-action analysis to improve outcomes and processes.

Frequently operated in ambiguous environment bed requiring rapid prioritization and decision-making.

(Full military background available upon request)

Air Force Materiel Command
Aircraft Maintenance Supervisor
March 2012 - December 2015 (3 years 10 months)
Oklahoma City, Oklahoma, United States

Led a team of mechanics in the teardown, inspection, and rebuild of aircraft engines at a depot maintenance facility, ensuring compliance with quality and safety standards. Managed workflow tracking, coordinated inspections using advanced diagnostic tools (NDI imaging, CNC measuring), and oversaw assembly and final engine testing for operational readiness.

Education

Community College of the Air Force
Associate's Degree, Airfield Management

Community College of the Air Force
Associate's Degree, Maintenance Technology
