Emilio Menendez Baker

Robot Rancher @ Anduril
Greater Seattle Area

Summary

Bridging the gap between cutting-edge tech and real-world impact: from the bike lane to the battlefield.

I enjoy taking eloquently-engineered marvels to market (mainly in the hardware domain, with some short deep-dives into software).

Experience

Anduril Industries
2 years 4 months

Senior Manager - Air Defense: Maneuver
January 2025 - Present (7 months)
Seattle, Washington, United States

Expanding my prior role. Focusing on the advancement of expeditionary Air Defense kill chains.

Emerging Capabilities Manager, Air Defense
April 2023 - January 2025 (1 year 10 months)
United States

Bringing new Air Defense products to market. I run ops for research and development, new product introduction, and growth efforts to ramp products for large volume sales.

Lyft
4 years 6 months

Senior Manager - Central Operations
March 2022 - March 2023 (1 year 1 month)
Seattle, Washington, United States

Lead the Asset Security, Product Marketing, and Go-to-Market teams for Lyft's micro-mobility line of business.

I did some IC work as well: supported early-stage operational processes and Lyft's commercial real estate in local markets. Outside of my normal job functions, I contributed to the Veteran employee resource group as a Lead.

Senior Manager - Asset Security
August 2021 - March 2022 (8 months)
Seattle, Washington, United States

Same work as listed below, but hired more teammates / grew the team's capacity and fostered new capabilities.

Manager - Asset Security
February 2020 - August 2021 (1 year 7 months)

Program manager for Lyft's vehicular loss-prevention efforts. Responsible for loss vector identification, impact sizing, and cross-functional risk-mitigation implementation. Owner of loss rate objectives across 15 micro-mobility systems and 6 products, with a deployed fleet valued at over $70M.

Manager - Hardware Operations
September 2019 - February 2020 (6 months)
Greater Seattle Area

Operations management for Lyft's light electric vehicle fleet. Managed the operational support for hardware product development, launch, and sustainment/maintenance. Responsible for supporting profitability objectives through hardware/feature selection and distribution.

Lead - Market Launch Ops
October 2018 - August 2019 (11 months)
United States

Go-to-Market operations for Lyft's micro-mobility business line. Focused on market entry operations consisting of market selection, hiring, industrial/ commercial commercial real estate, onboarding, logistic synchronization, and cross-functional coordination.

US Army
Infantry Officer
May 2014 - October 2018 (4 years 6 months)

Un-noteworthy career as an Infantry Officer. Had a lot of fun, learned a lot of useful skills, and met some great folks. It ended up not being my passion, but I am grateful to have served.

Education

Western Michigan University
Bachelor of Science - BS, Behavioral Sciences · (2010 - 2014)
