# Petros Shumie

Hybrid Cloud | Enterprise Strategy Consultant
Atlanta, Georgia, United States

## Summary

I drive strategic transformation architecting secure, scalable hybrid cloud solutions. My focus is translating complex technologies into unified, actionable strategies—anchored by governance frameworks and integrated technology layers that ensure interoperability and risk mitigation.

Partnering with senior strategy leaders, I deliver product-agnostic, research-driven approaches that align technology investments with business objectives, building resilient, future-ready ecosystems to accelerate digital transformation and enterprise value.

## Experience

### NSIN - National Security Innovation Network
Business Technology Consultant
June 2023 - November 2023 (6 months)
United States

Commercializing breakthrough defense technologies by identifying cutting-edge DoD  developed in government laboratories, Federally Funded Research and Development Centers (FFRDCs), and University Affiliated Research Centers (UARCs).

### NSIN - National Security Innovation Network
Cloud Architecture Consultant
March 2022 - July 2022 (5 months)
United States

Architected hybrid of application infrastructure for the JCU (Joint Communications Unit) of the #DOD (Department of Defense).

- Review current script used for automated application deployments across kubernetes clusters.
- Applications served from on-premises hardware.
- Familiarize & review codebase/#scripting/technology used in deployments.
- Structure & Replicate on-premise architecture to run on cloud deployments.

Focused on cloud migration of on-premise applications, primarily in the Amazon Web Services cloud environment.

### Georgia Institute of Technology
MERN Stack Engineer
August 2019 - February 2020 (7 months)
Atlanta, Georgia

Studied Full-Stack web development at Georgia Tech during which I created dynamic data-driven applications that utilized the power of JavaScript, HTML5, & CSS3.

Furthermore, the program introduced and actively encouraged the utilization of modern development tools and industry standards such as but not limited to: Node.js & Express.js as a JavaScript runtime and server-side development; React for front-end frameworks, SQL & NoSql databases such as MongoDB for data persistence.

### Fluent Grp
Market Researcher Intern
August 2013 - December 2013 (5 months)
Greater Atlanta Area

-Performed research on and off college campus for upcoming Kellogg's product launch.
-Compared information regarding breakfast trends among college students.
-Effectively summarized product viability for students short on time.
-Determined if products were effective at reaching a health conscious market.

-Combine weekly correspondence with program executives journaling data logs.

### Turner (Turner Broadcasting System, Inc)
Digital Marketing & Sales Intern
August 2009 - May 2011 (1 year 10 months)
Decatur, GA

-Managed eBay Business Accounts, Cartoon Network Closet, Adult Swim Closet.
-Composed quarterly revenue and profit margins for Turner Broadcasting Execs.
-Supervise, train and hire prospective interns.
