Anekan Naicker

Student at the Academies of Loudoun, Top 5%, Member of Worlds-Qualifying VEX Team and Founder of Light of Learning
Ashburn, Virginia, United States

Summary

I am a high school student studying at the Academies of Loudoun and Briar Woods High School. I am the President and Founder of the Nonprofit: Light of Learning, helping over 800 underprivileged students in India. I am the engineer and notebooker for the VEX Team: Cryptix, with a record of a Worlds Qualification and a Skills/ Design Award. I am also the Vice President of a Rocketry Club with over 30 members currently. Other than these activities, I have played as a member of the All-State Virginia Guitar Ensemble along with being a competitor for PF Debate within my school.

In the Academies of Loudoun, I have completed several projects including a Solar Panel that can track the sun and a self-navigating robot that can complete a maze. I work extensively with mechanical and software engineering with the integration of sensors and actuators with real projects to fuse circuits with design.
