## Summary

Autonomy is hard...Building it responsibly for combat is even harder.

After a career as a test pilot in the US Air Force, I imagine a future where deterrence hinges on collaborative human machine teams working as one.

At Scientific Systems I am proud that we're delivering collaborative autonomy software to elevate human performance for competitive advantage across land, sea, air, and space.

By integrating autonomy and AI products into today's combat systems we have the opportunity to deliver a very real tactical advantage for America and our Allies. On the modern battlefield, whoever integrates these new tools the fastest, and most effectively, wins.

During my time in both government service and the private sector I've championed any technology that helps Warfighters make better and more informed decisions in the heat of battle. By breaking traditional vendor lock and democratizing software development on existing and future combat systems we make sure our Airmen, Guardians, Marines, Sailors, and Soldiers return home safely.

With the National Defense shift to embrace open systems and third party software suppliers, now is the perfect time to make our Warfighters more lethal and survivable than ever before. At Scientific Systems, we are doing just this, deploying our software into heterogeneous hardware that transcends individual domains and military services.

In the end, I see a future where we can offload risk and routine to free our service members to focus on what matters most: Outpacing our adversaries in all domains.

## Experience

### Scientific Systems
Chief Strategy Officer (CSO)
May 2026 - Present (2 months)
Burlington, Massachusetts, United States

### ACES and Eights Foundation
President
February 2022 - Present (4 years 5 months)
United States

### Applied Intuition
Chief Engineer
January 2026 - May 2026 (5 months)
Knoxville, Tennessee, United States

### EpiSci (an Applied Intuition company)
2 years 6 months

President
December 2024 - January 2026 (1 year 2 months)

Chief Technology Officer
August 2023 - December 2024 (1 year 5 months)
Knoxville, Tennessee, United States

Delivering Trusted Autonomy for a Secure Future

### United States Air Force
Commander, AFOTEC Det 6
April 2021 - June 2023 (2 years 3 months)
United States

### Defense Advanced Research Projects Agency (DARPA)
Program Manager
July 2018 - March 2021 (2 years 9 months)
Arlington, VA

### United States Air Force
5 years 11 months

Blue Horizons CSAF Fellow

July 2017 - June 2018 (1 year)
Maxwell AFB, AL

### Chief of Safety
August 2016 - July 2017 (1 year)

### Squadron Commander
August 2014 - July 2016 (2 years)

### Director of Operations
August 2012 - July 2014 (2 years)

### National Intelligence University
Student
August 2011 - July 2012 (1 year)

### US Air Force
9 years 9 months

#### F-22 Experimental Test Pilot
November 2009 - July 2011 (1 year 9 months)

411th Flight Test Squadron, Test ADO

Edwards AFB, CA 93524

#### F-16 Experimental Test Pilot
June 2008 - November 2009 (1 year 6 months)

416th Flight Test Squadron, Chief of Weapons and Stan/Eval

Edwards AFB, CA 93524

#### Student, Test Pilot School
June 2007 - June 2008 (1 year 1 month)

USAF TPS Class 07B

Edwards AFB, CA 93524

#### F-16 Instructor Pilot
August 2006 - June 2007 (11 months)

445th Flight Test Squadron, Asst Chief of Scheduling

Edwards AFB, CA 93524

#### F-16 Instructor Pilot
January 2004 - August 2006 (2 years 8 months)

523rd Fighter Squadron, Chief of Training

Cannon AFB, NM 88103

F-16 Student Pilot
April 2003 - January 2004 (10 months)

62nd Fighter Squadron (03 FBC) and 310th Fighter Squadron (04 BSI)

Luke AFB, AZ 85309

T-37/38 Student Pilot, Euro-NATO Joint Jet Pilot Training
November 2001 - April 2003 (1 year 6 months)

ENJJPT Class 03-02, 88th Flying Training Squadron (IFF Class 03 HBS)

Sheppard AFB, 76311

US Air Force
Student, AFIT CI
May 1999 - August 2001 (2 years 4 months)

PhD Student, Air Force Institute of Technology - Civilian Institution

Purdue University Andrews Fellow

West Lafayette, IN 47907

PRIME Lab
Accelerator Operator
August 1995 - May 1999 (3 years 10 months)

Purdue Rare Isotope Measurement Laboratory (PRIME Lab)

West Lafayette, IN 47907

## Education

Purdue University

Doctor of Philosophy (Ph.D.), Physics · (1999 - 2001)

Air Force Center for Strategy and Technology

Master of Science (M.S.), Airpower Strategy and Technology Integration · (2017 - 2018)

National Intelligence University

Master of Science (M.S.), Science and Technology Intelligence · (2011 - 2012)

United States Air Force Test Pilot School

Master of Science (M.S.), Flight Test Engineering · (2007 - 2008)

Purdue University

Bachelor of Science (B.S.), Aeronautical Engineering · (1995 - 1999)
