Window of Opportunity: Mitigating Threats from Disruptive Technologies Before Widespread Adoption

# Christopher Knapp

Empowering the Uncrewed Industry
Orlando, Florida, United States

## Summary

I know very little about drones. Drones are toys or targets. I know uncrewed systems and sensors. I know them because I've used them in highly dynamic environments working side-by-side with the most intelligent, dedicated, and honorable uncrewed operators you will find in uniform. My 22 years of military experience started with crewed platforms and then transitioned to uncrewed systems – the experience outlined in this profile speaks for itself.

I am straightforward, a realist, and have been perceived as an a$ $hole on more than one occasion. I'm passionate about this stuff, and that's difficult for me to hide. Industry and DoD can do better, and I want to help. This platform is littered with supposed "Drone Experts" that base their understanding of uncrewed systems from playing with them in their backyards, doing research online, and talking with people in uniform. To have actual insight into what DoD needs, how dual-use tech can cross the chasm, or how crewed and uncrewed systems can safely and effectively operate together you need first-hand exposure.

Consider me "The Lewis Black of the Uncrewed Industry"

## Experience

### Uncrewed Insights
Managing Partner
March 2024 - Present (1 year 5 months)

We are a dynamic team of government service veterans with deep institutional knowledge of current, emerging, and disruptive uncrewed systems and sensors. Acting as change agents, we provide forward-thinking solutions to address today's most prevalent problem sets. We have executed real-world missions at the tactical, operational, and strategic level as system and sensor operators, decision makers and requirements developers, and were fortunate enough to then use that experience while serving in subsequent

leadership roles. Uncrewed Insights is committed to providing high-value, data-driven insights that will improve efficiencies and deliver long lasting returns on investments.

### Uncrewed Warrior Foundation
Chief Engagement Officer
April 2023 - Present (2 years 4 months)

The Uncrewed Warrior Foundation is a 501c3 public charity that provides a foundation of support to active duty personnel, their families, and veterans of the Special Operations Forces (SOF) Uncrewed System, Sensors, and Robotics Warfare community through transition assistance, education, mindfulness, and comradery.

### Precision Defense USA
Co-Founder
November 2021 - Present (3 years 9 months)

Securing an edge over the competition for government and private organizations by advising and assisting their emerging technology efforts.

### Naval Postgraduate School
Deputy Director, Emerging Technology Consortium
July 2020 - December 2021 (1 year 6 months)
Monterey, California, United States

Working at the intersection of the government, industry, and academia, identified emerging technologies and established their acquisition and adoption pathways.

### NavalX
Advisor
July 2020 - December 2021 (1 year 6 months)
United States

Enabled NavalX Tech Bridge efforts through the development of processes and policies to permit the use of non-traditional acquisition strategies and the ability to leverage outside capital.

### US Navy
Aviation Safety Officer
February 2015 - December 2021 (6 years 11 months)

### Refinery Ventures

Defense Ventures Fellow
March 2021 - May 2021 (3 months)

Supported company evaluations, and provided valuable insight into the uncrewed sector.

Naval Special Warfare - U.S. Navy SEAL Teams
5 years 9 months

Director, Science and Technology (Special Reconnaissance Group)
September 2019 - July 2020 (11 months)
Virginia Beach, Virginia, United States

Program Manager, Uncrewed Systems Acquisitions & Requirements / Science & Technology
January 2019 - September 2019 (9 months)
Virginia Beach, Virginia, United States

Director, Uncrewed Aircraft Systems (UAS) & Aviation Safety
January 2017 - January 2019 (2 years 1 month)
Virginia Beach, Virginia, United States

Lead, Uncrewed Aircraft Systems (UAS) & Aviation Safety
November 2014 - January 2017 (2 years 3 months)
Coronado, Ca

Air Force Special Operations Command
ISR Operations Director / Mission System Operator
December 2011 - February 2013 (1 year 3 months)
Hurlburt Field, FL

Planned and executed 24/7 flight operations totaling nearly 1,000 sorties. Streamlined procedural processes to greatly reduce impact on operational effectiveness due to a constant rotation of temporarily assigned personnel.

US Navy
Project Manager, Aircraft Maintenance & Aircrew Training (E-2C Hawkeye)
November 2008 - November 2011 (3 years 1 month)
Naval Air Station Point Mugu, CA

US Navy
6 years 4 months

Journalist
September 1999 - December 2005 (6 years 4 months)

Achieved the rank of First Class (E-6)

### Deputy Public Affairs Officer
November 2000 - December 2002 (2 years 2 months)
Whidbey Island, Wash.

## Education

### Naval Postgraduate School
Master's Degree, Homeland Security and Defense · (2013 - 2014)

### Naval School of Aviation Safety
Aviation Safety Officer (ASO) · (2015 - 2015)

### University of North Carolina at Chapel Hill
Bachelor's Degree, Public Relations · (2002 - 2005)

### Defense Information School
Graduate, Basic Journalist Course and Basic Broadcaster Course · (1999 - 2000)

### Shift
Defense Ventures Fellowship · (March 2021 - May 2021)
