Simon Price, PhD

HMRC AI Adviser | Contractor | Shaping AI in a £1 trillion organisation
Greater Bristol Area, United Kingdom

Summary

On a 12-month mission to "join the dots" on AI at HM Revenue & Customs, to build solid AI foundations, to shape and curate an exciting new Chief AI Office, focusing on AI-powered transformation and long-lasting benefits. Entailed leading on responsible adoption of AI and emerging technologies at HMRC - serving 40 million customers, supporting £8 billion in compliance revenue, and shaping AI for an organisation administering over £1 trillion in tax. A remit spanning enterprise AI strategy, operational integration, and large-scale experimentation - including the 50,000-user Copilot rollout, the largest M365 Copilot deployment in UK government. Building critical partnerships across government, industry, and academia, including serving on the Advisory Board for the UK Centre for Doctoral Training in Practice-Oriented AI (ProAI).Previously held senior data and AI roles at Unisys, Lloyd's Register, Just Eat, NATO, Capgemini, and academia. PhD in Computer Science from the University of Bristol, Honorary Senior Research Fellow, 50+ peer-reviewed papers across AI, data, and software engineering.

Experience

HM Revenue & Customs
1 year 1 month

HMRC AI Adviser
April 2026 - Present (3 months)
Bristol, England, United Kingdom

Organisational design, curation and nurturing of HMRC's new Chief AI Office - shaping the operating model, capabilities, resourcing, incubation and scaling approaches. Trusted adviser to the CAIO on AI strategy, governance, risk, security, assurance and procurement - influencing how one of the UK's largest public sector organisations moves from its strong AI foundations to AI-powered enterprise transformation.

Director of Insight, AI and Innovation
June 2025 - April 2026 (11 months)
Bristol, England, United Kingdom

A strategic role shaping AI at HM Revenue & Customs, leading adoption of AI and emerging technologies to transform tax administration across the UK. Developing enterprise-wide AI strategies, building partnerships across government and industry, and ensuring responsible innovation that delivers real value for taxpayers.

Unisys
5 years 7 months

Senior Director, Data & AI
August 2022 - June 2025 (2 years 11 months)
