Jonathan Bowler

Warrant Officer in Uniform, Systems Admin by Trade | Targeting Risk, Fortifying Systems, Owning the Stack!
Spokane, Washington, United States

Summary

Warrant Officer in uniform, Systems Admin by trade — with 10+ years in IT and 18 years in the Army, I've led and supported secure infrastructure across both civilian and military domains. Since transitioning to DoD-focused roles in 2023, I've been building, hardening, and optimizing systems that keep operations moving and threats at bay.

Whether it's securing Windows environments, deploying PowerShell-driven automation, or tracking down misconfigurations before they become vulnerabilities, I bring mission focus to everything I touch.

I've upgraded critical systems without downtime, deployed enterprise-wide solutions across multiple sites, and recovered sensitive data with forensics precision. I'm fluent in Active Directory, MECM, Trellix, and the language of risk reduction.

I don't just keep the lights on — I ensure the system behind those lights is hardened, monitored, and ready for anything.

Specialties: Windows Server | PowerShell | Azure AD | AWS | SCCM/MECM | Digital Forensics | DoD Compliance
Credentials: Security+, AWS CCP, Server+, LPI Linux Essentials, Google Admin, ITIL
Clearance: Top Secret

Currently supporting DoD operations with a focus on secure systems, process optimization, and long-term resiliency. My passion lies in hands-on problem solving — whether that's recovering critical data through forensic tools or fortifying infrastructure at the server level.

Experience

The Ventura Group, Inc.

System Administrator

March 2025 - Present (1 year 4 months)

Spokane, Washington, United States

United States Army Reserve

10 years 2 months

Warrant Officer

March 2024 - Present (2 years 4 months)

Spokane-Coeur d'Alene Area

o Lead a field hospital platoon of 4 officers and 18 enlisted personnel; responsible for readiness, training, and mission execution.

o Serve as Officer in Charge (OIC) for Army Combat Fitness Tests, coordinating logistics and oversight for 156 personnel across biannual testing cycles.

o Acted as Deputy S6 during WAREX/Regional Medic, maintaining 100% COMSTAT and ensuring mission-critical communications for over 100 personnel.

o Provided secure transport of tactical systems, enabling TOC operations for higher echelons.

o Ensured full S6 compliance during classified training by coordinating directly with EXCON; achieved zero security violations.

o Volunteered for ADVON and Trail Party teams, ensuring 100% accountability and secure movement of sensitive items.

o Assumed OIC duties during closing briefs, demonstrating cross-functional leadership under pressure during personnel shortages.

Warrant Officer Candidate

May 2022 - March 2024 (1 year 11 months)

Spokane-Coeur d'Alene Area

Drill Sergeant

May 2016 - May 2022 (6 years 1 month)

Fairchild, Washington, United States

o Trained new civilians how to be Army Soldiers.

Negative Split Event Timing

Head Timer

March 2022 - November 2025 (3 years 9 months)

Spokane, WA

o Set up and operated race timing infrastructure, including GPS receivers, floor mat RFID chip readers, and RM Timing System databases, supporting events from 5Ks to full marathons with 200–3,000+ athletes;

o Built and managed temporary, high-uptime LAN environments using multiple wireless access points, printers, PoE cameras, voice comms, and laptops to coordinate timing, communications, and real-time updates;

o Troubleshot timing system data integrity issues, synchronized system clocks using NTP, and resolved discrepancies in athlete timing with minimal disruption to event operations;

o Delivered calm, professional customer service under high-pressure conditions, resolving timing disputes and system malfunctions for athletes and event organizers in real time.

Telos Corporation

System Administrator

September 2024 - March 2025 (7 months)

Spokane, Washington, United States

o Implemented and configured 4 virtual Tanium appliances to optimize server usage across the domain.
o Reduced organizational attack surface by auditing and removing stale AD accounts, streamlining user lifecycle policy.
o Issued and configured secure tokens for 20+ new users in a controlled environment.

The Ventura Group, Inc.

System Administrator

February 2023 - September 2024 (1 year 8 months)

Spokane, Washington, United States

o Upgraded 8 DC’s from Server 2012 to Server 2016 with zero system failures.
o Built and deployed ADFS Server 2016 for a 150-user environment, enabling SSO functionality.
o Migrated endpoint protection from McAfee 5.9 to Trellix ePO 5.10 on Windows Server 2019.

o Managed MECM software updates and Powershell-Based application deployments across distributed locations.
o Responded to DISA IAVMs and incidents using the Remedy System, reducing SLA resolution time by 25%.

Gonzaga Preparatory School

8 years 6 months

Systems and Network Technician

September 2019 - February 2023 (3 years 6 months)
Spokane, Washington, United States

o Automated thick client provisioning using Ansible on a Linux server for RDP access to centrally stored profiles.
o Managed 21 networked printers via Group Policy, ensuring consistent configuration and print service availability.
o Maintained lifecycle management of $1M+ in IT assets, including VOIP systems, laptops, WAPs, switches, and projectors.
o Monitored Fortinet firewalls and FortiAnalyzer logs to detect intrusion attempts and malware activity.
o Applied server patches via WSUS and Group Policy to maintain system security and compliance.
o Administered Active Directory accounts for 1,100 users annually, following least-privilege access principles.
o Deployed and managed EventSentry for centralized logging and intrusion detection alerting.
o Performed daily Veeam snapshots and full backups of core servers to cloud-based storage for business continuity.
o Managed DNS records including SPF and DKIM for Google Workspace email infrastructure.
o Monitored infrastructure health using Observium and SNMP to proactively identify and resolve system issues.

IT Support Technician

September 2014 - September 2019 (5 years 1 month)
Spokane, Washington, United States

U.S. Air Force Reserve

Air Transportation Journeyman

April 2010 - May 2016 (6 years 2 months)
JBLM, Washington, USA

US Army
M1 Armor Crewman
June 2006 - December 2010 (4 years 7 months)
Fairbanks, Alaska, United States

Education

Western Governors University

Bachelor of Science - BS, Information Technology · (2018 - January 2023)

Spokane Falls Community College

Associate of Arts and Sciences - AAS, Information Technology · (June 2014)
