Thermal imaging system for internal combustion engines

# Jon Lesko

President at Infrared Detection & Analysis Systems
Arvada, Colorado, United States

## Summary

Accomplished professional with significant engineering and research experience in commercial and government sectors, including DoD. Diverse background in R&D methodologies across multiple industries, including aerospace, oil and gas, and automotive. Groundbreaking expertise with infrared imaging technology for harsh and extreme environments. Adept in leading teams to successfully complete large projects on time and within budget.

## Experience

### Infrared Detection & Analysis Systems
President
November 2016 - Present (9 years 8 months)
Arvada, Colorado

### Technology Assessment & Transfer, Inc
Sr. Principal Engineer, Optics & Imaging Specialist
January 2015 - January 2022 (7 years 1 month)
Annapolis, MD

### Jon Lesko
Research Professional
November 2014 - October 2016 (2 years)
Arvada, Colorado

### Apogee Scientific, Inc
7 years 3 months

Chief Operating Officer
May 2012 - October 2014 (2 years 6 months)
Englewood, CO

Vice President, Optical Technologies
August 2007 - April 2012 (4 years 9 months)
Englewood, CO

The Tekne Group Inc.
Senior Research Engineer
2001 - 2007 (6 years)

Ford Motor Company
Product Development Engineer
2000 - 2006 (6 years)

University of Denver, Department of Physics and Astronomy
10 years

Research Faculty, Senior Research Scientist
1996 - 2000 (4 years)

Research Engineer
1990 - 1996 (6 years)

## Education

University of Denver
Research Faculty, Senior Research Scientist, Optical and Applied Physics, Combustion Dynamics, Metrology · (1996 - 2000)
