Cell Biology

David Cohen

Principal at CohenSciences
Oakland, California, United States

Summary

I work with medical device and biotechnology clients to develop their patent portfolio and map the patent landscape that surrounds them. I immerse myself in the client's subject matter, and deliver high-end, understandable, and effective work product. Getting early patent traction with provisional applications can be very important. I work well with outside counsel, if the client has one. I work well with inventors to draw out an invention and its novel features within a patent application that has claims of appropriate breadth. Specialties: patent applications, patent searching, medical devices, biotechnology, cell biology, and physiology.

Experience

CohenSciences
Principal
May 2009 - Present (17 years 2 months)

Intellectual property consulting: writing and prosecuting patent applications for biomedical companies.

Xcell Biosciences
Director of Intellectual Property
August 2017 - Present (8 years 11 months)
San Francisco Bay Area

Pull the invention forward from the inventors, write patent applications, and manage workflow with outside counsel.

MAZAKALI
Patent Consultant
August 2016 - August 2017 (1 year 1 month)
San Francisco Bay Area

Mazakali provides comprehensive services to cannabis entrepreneurs and investors. I consult with the Mazakali community regarding patents in the cannabis space, dealing with questions about the prior art, freedom to operate, and patentability.

LIM Innovations
Director of Intellectual Property
October 2012 - January 2017 (4 years 4 months)

LIM Innovations is developing effective and human-empowering prosthetic devices for people living with limb loss. These devices are designed for use anywhere in the world, particularly in developing or challenging regions, and thus are inexpensive, quick for a prosthetist to assemble and fit, and adjustable by the user.

QB3
Consulting Patent Agent
October 2012 - January 2014 (1 year 4 months)
Mission Bay Campus of UCSF

QB3 is a start up incubator for companies being developed by UCSF physicians. I provided mentoring and write patent applications that translate invention maximally into intellectual property.

TheraNova
Consulting Patent Agent
September 2011 - May 2012 (9 months)
San Francisco, CA

Theranova is a medical device incubator in San Francisco that addresses large medical markets with unmet needs, eveloping solutions and spinning start up companies. My focus was on a Foley catheter modified so as to provide pressure sensing data.

Aragon Surgical, Inc.
Patent Agent Consultant
May 2010 - August 2011 (1 year 4 months)
Palo Alto, CA

Providing leadership re patent portfolio development issues: writing and prosecuting patent applications, working with management and inventors to align portfolio with product development direction. Based in part on the strength of its IP, Aragon made a successful exit with its acquisition by Aesculap, a leading German medical device company.

ShayGlenn LLP
Patent Agent
January 2007 - May 2009 (2 years 5 months)

Wrote and prosecuted patent applications for a wide variety of medical devices.

Greenberg Traurig
Patent Agent
July 2005 - December 2006 (1 year 6 months)

Wrote patent applications in a variety of areas, including pharmaceuticals and medical devices.

Independent Contractor
Patent Agent
March 2003 - July 2005 (2 years 5 months)

Consulting, major client was TheraSense (now Abbott) of Alameda CA; the product was a glucose monitor for diabetics.

Nanomix
Patent Manager
January 2002 - February 2003 (1 year 2 months)

Wrote patent applications for hydrogen storage systems.

Bayer Biotechnology
Lab Head, Process Development
1996 - 2001 (5 years)

Modeled mammalian cell culture processes in small scale systems to derive gold standard biological parameters that predicted process performance in large scale manufacturing.

Genetics Institute (now Pfizer)
Lab Head
1991 - 1996 (5 years)

Developed mammalian cell culture medium and cell lines for large scale manufacturing processes.

Education

University of California, San Francisco - School of Medicine
Ph.D., Endocrinology

University of Colorado Boulder
M.A., Biology

University of California, Berkeley

A.B., with Honors, Zoology
