Top Skills

Just an empty cup, nothing less, nothing more. just here and now,

Budget Management

Engineering

Navtej Singh

All words here are my reflections—maybe hallucinations—belonging to no one and everyone, rising lightly from 21 consonants and 5 vowels. My iota, my wave. ~i~ … and so are you.

Folsom, California, United States

Summary

I am an engineer and lifelong learner, sparked on my grandfather's few acres where oxen and buffaloes moved with quiet purpose. That spark carried me through GNEC, PAU, and UoM to publish in Robotica, from serving tacos and driving taxis in Winnipeg to leading with precision at Intel—each step aligned, no motion wasted, every move in balance. I seek impact through clarity, harmony, and shared purpose, with one small regret: music, left unlearned. ;-(

Experience

Intel

Sr. Engineer

March 1998 - Present (27 years 10 months)

Folsom, California, United States

Enabling the PC ecosystem for evolving needs, focused on EC hardware and firmware. My path runs through materials, mechanics, thermals—cooling, hydraulics, fluid flow, acoustics, haptics, sensing—yet I still feel like a ten-year-old who knows nothing.

That unknowing keeps me open, moment by moment, cutting through noise, staying with what is—here, now.

PTC

QA Engineer

April 1996 - March 1998 (2 years)

San Jose, California, United States

From AutoCAD to Rasna to PRO/E, Pro Mechanica to ANSYS and Abaqus —each tool a step, each domain a horizon. Thermal, mechanical, kinematic, dynamic—the equations unfold, time bends, and simulations whisper futures. Grateful simply to be here, now.

Rasna -- https://keithkrach.com/engineering-automation/

MS Equipamentos - New Holland

Design Engineer
March 1993 - March 1996 (3 years 1 month)
Canada

Operations research, QA, ISO 2001, ROPS, hydraulics, harmonics, noise canceling. stress -strain simulations, welding robots.

Education

University of Manitoba
MS in Industrial Enginnering, Operations Research, Control systems, PID, Fuzzy Logic, RNNs, Robotics. · (1990 - 1993)

GNEC, Punjab, India
Mechanical Engineering , Mechanical Engineering · (September 1984 - May 1988)
