Duncan Bowring

Director at Accenture
Washington, District of Columbia, United States

Summary

My core competencies lie in the integration of technology and strategic leadership to revolutionize business operations. At Accenture, my mission is to drive innovation and efficiency, leveraging my expertise in platform engineering, cloud computing, and enterprise architecture.

In my current role at Accenture, I focus on marrying industry expertise with entrepreneurial vigor to challenge and expand our clients' core businesses. My approach is rooted in harnessing the power of real time data to decision (D2D) and cloud-native capabilities to deliver unparalleled products that drive exceptional customer experiences. As a GlobalScot, I further extend my impact by nurturing global business connections, directly influencing Scotland's economic prosperity on the international stage.

Experience

Accenture
Director, Architecture, Cloud Advisory
November 2021 - Present (3 years 9 months)
North America

Combining technology, industry expertise, and entrepreneurial experience to massively disrupt our clients’ core businesses. We partner with our clients to propel them into the future and to help create better products and experiences for everyone.

Scottish Development International
GlobalScot
May 2023 - Present (2 years 3 months)

The GlobalScot network is made up of executives located throughout the world, working in a wide range of industries at the very highest level. GlobalScots all have strong connections with Scotland - whether through their

heritage, ancestry or professional background - and each of them has a strong desire to see Scotland succeed in the global business arena.
We give our time, knowledge and expertise freely for the good of the Scottish economy. We are motivated by a firm belief that building new business connections will allow Scottish commerce to flourish nationally and internationally, GlobalScots take a personal interest in helping to shape and support Scotland's future economic prosperity.

Tegria
Director of Engineering, Software & Platforms Group
May 2019 - November 2021 (2 years 7 months)
Seattle, Washington, United States

Collaboratively working to evolve the practice of product-focused organizing.

Integrating DevOps and security into product engineering, cross functionally de-siloing with shared responsibility, clear accountability, empowering development and delivery of cloud-native solutions across the healthcare industry.

As a tech company launched inside of a health system, MultiScale understands the complex demands of the healthcare ecosystem. The unique alignment between technology developers and clinical end users has enabled innovative technology solutions that transform collaboration and ignite decision making.

MultiScale has developed the only solution to lift the data of a health system into a secure, HIPAA compliant cloud and integrate multiple EHR instances into a single service.

DirectlyOps
Principal Solutions Architect - Founder
September 2015 - May 2019 (3 years 9 months)
San Francisco, and London UK

I started DirectlyOps with a mission to provide support to organizations that would benefit from solving problems earlier in their life, but can’t justify the headcount for the disciplines required.

Developed over $30M recurring revenue within the video games industry, the public sector, real estate enterprise, healthcare, e-commerce, and early stage startups.

Sauce Labs
Director of Operations
June 2014 - September 2015 (1 year 4 months)
san francisco, california

Sauce Labs provides the world's largest automation cloud for testing web and native/hybrid mobile applications.

Modernization of test cloud, launch of real device cloud, supported and championed enterprise SaaS readiness

nWay Inc.
Senior Director of Operations (Platform)
May 2013 - July 2014 (1 year 3 months)
San Francisco Bay Area

Real Games in Real Time.

nWay is a developer and publisher of free-to-play online multiplayer games based in San Francisco, California. We were founded in 2011 by gaming and startup veterans, who want to bring fun console-quality multiplayer games to the web and mobile platforms.
We're excited to have assembled a team composed of some of the most passionate and talented professionals in the game industry. Our team has collectively developed and launched over a dozen hit console and online games, including several that have redefined their respective genres: Lemmings, Grand Theft Auto, Diablo, Diablo II, The Sims 2, Dead Space 2, FIFA Online, and Lineage II. All together, the nWay team has helped the industry generate billions of dollars in sales and is comprised of leading developers and executives from RockStar North, Electronic Arts, Blizzard, Google, LucasArts, Maxis, NCSoft, Nintendo, ILM, Aeria, PDI/DreamWorks, Zynga, and Tencent.

Reloaded Games, Inc.
