Jake Forsey

Senior Machine Learning Engineer at Faculty
West Midlands, England, United Kingdom

Summary

https://github.com/jakeforsey

Experienced data analyst/scientist providing end to end data-centric business solutions and insight. Focused on machine learning, predictive modelling, statistical analysis and data visualisation.

Expertise in handling difficult datasets (e.g. images and free text), Geographical Information Systems (GIS) and road networks.

Python (Numpy, Pandas, Sci-Kit learn, TensorFlow, Jupyter, OpenCV)
Data visualisation (Tableau)
GIS (FME, QGIS, ArcMap, ENVI)
3D modelling (AgiSoft PhotoScan, SolidWorks, CloudCompare)
Microsoft Office (Excel, Visio, Access, Word, PowerPoint)

Experience

Faculty
Senior Machine Learning Engineer
July 2025 - Present (1 year)

Ripjar
Data Scientist
March 2024 - July 2025 (1 year 5 months)

Bitweave
3 years 8 months

Head of Data Science
January 2023 - February 2024 (1 year 2 months)

Data Scientist
July 2020 - January 2023 (2 years 7 months)

Geospatial Insight Limited
Data Scientist
November 2018 - July 2020 (1 year 9 months)
Birmingham, United Kingdom

With offices in London and Birmingham, we provide independent research and intelligence to clients from large-scale analysis of aerial and satellite imagery.

Geospatial Insight Limited uses expert analysis of imaging data to give companies an information edge over their competitors.

Our services provide clients in the Finance and Insurance sectors with ground-breaking independent research in areas such as risk analysis, investment evaluation, asset monitoring, and event impact assessment, delivering those clients a distinctive competitive advantage.

Field Dynamics Consultancy
GIS Consultant
October 2016 - November 2018 (2 years 2 months)
B3 1TX

Leveraging large datasets and advanced software packages to provide clients with insight into field operations across industries.

Flomatik Network Services
GIS Analyst
January 2016 - October 2016 (10 months)

University of Worcester
Vacation Research Assistant
June 2015 - July 2015 (2 months)

Comparing pole-based photogrammetry to UAV-based photogrammetry for modelling small rivers.

Education

University of Worcester
Bachelor’s Degree, Environmental Science · (2012 - 2015)
