As a woman leader in defense technology, she exemplifies diverse leadership drives innovation in national security. Her commitment to excellence n continues to shape the future of defense technology and organizational effectiveness.

Experience

XR2LEAD
Chief Executive Officer
September 2019 - Present (6 years 10 months)
Washington D.C. Metro Area

"Intelligence Redefined- Defense Re-imagined"

XR 2 LEAD stands at the forefront of defense and aerospace innovation, delivering state-of-the-art AI-driven solutions that are transforming military training and operational capabilities. As a distinguished woman-owned small business, we partner with premier defense organizations to revolutionize warfighter readiness through advanced technology integration. Our proprietary solutions seamlessly blend artificial intelligence, extended reality, and sophisticated modeling to create next-generation training and mission-critical systems.

Core Capabilities

Advanced Technology Solutions

• Advanced AI/ML Architecture Implementation
• Immersive XR (VR/AR/MR) Training Environments
• Model-Based Systems Engineering (MBSE)
• High-Fidelity Digital Twin Solutions
• Intelligent Autonomous Systems
• Advanced Predictive Analytics & Maintenance

Strategic Training Solutions

• AI-Powered Adaptive Learning Systems
• Combat-Ready Simulation Environments
• Mission-Critical Serious Games Development
• Advanced Wargaming Platforms
• Multi-Domain Operations Training
• Performance Optimization Systems

Strategic Differentiators

• Proprietary AI-driven adaptive learning technology
• Military-specific extended reality training solutions
• Quantum-ready secure architecture
• Triple Bottom Line methodology: People-Planet-Profit
• Rapid deployment capabilities
• Comprehensive digital transformation expertise

NATO Science & Technology Organization (STO)

NATO SAS 219 High North Scenarios for Wargaming and Analysis- representing USA Technical Team

January 2026 - Present (6 months)

NATO Science and Technology Organization’s System Analysis and Studies Panel has endorsed the project SAS 219 High North Scenarios for Wargaming and Analysis.

United States of America is the lead nation (Chair Stephen Nelson) and Norway the co-leading nation (Chair Emilie Åsberg) for the initiative over the next three years.

The chairs will enable resources of government, industry, academia, and thinktanks from NATO Nations and partners to understand what the current reality of the Arctic / High North is for 2030.

Then use novel methods of analysis, foresight, M&S, and wargaming to provide anticipatory recommendations for what this scenario looks like in 2045.

management, competency management, change management, and individual and group-based coaching.

Professional Training and Coaching

Learning & Development Specialist / Corporate Trainer

November 2006 - September 2013 (6 years 11 months)

My workshops and training sessions are heavily based on the concepts of Neuroscience and brain based studies. I have researched, designed and delivered trainings based on these concepts to over 3000 professionals.

The following are some of the well researched trainings courses that I have designed, developed and delivered:

- EQ (Daniel Goleman Model)
- Problem Solving and Decision Making
- Building High Performance teams
- Brain-Based Slides for Presentations
- Performance Management
- “Outbound“ Leadership Trainings sessions based on experiential learning

OPEN ENROLLMENT SESSIONS , FORUMS AND INTELLECTUAL GATHERINGS

Designed, developed and delivered numerous speaking sessions and trainings on a vast variety of topics. The most popular ones are:

- The Secret of Success
- The Law of Attraction
- Edward De Bono’s 6 Hat Problem Solving Method
- Creative Leadership
- The Laughter Club
- The Power of Positive Attitude

Ceesquare Pvt Ltd

5 years 1 month

CEO & Founder

March 2007 - March 2012 (5 years 1 month)

I had always dreamed of having my own business and going the extra mile for clients in pursuit of excellence. I established this company after working for another organization, doing the same thing. I thought, if I am doing business development, meetings, designing and delivering trainings for this company, what if I do this on my own?

BUSINESS DEVELOPMENT/ SOCIAL MEDIA/ NETWORKING

I left my job and started networking and finding clients. I joined every HR and training forum in the city and even spoke at quite a few. In just 3 weeks I found my first client and was given 3 training assignments by them! I was over the moon. I knew this was what I was meant to do.The next step was constant business development and networking that required extensive time on the road. I wanted to work smart rather than work hard. Social media was the answer. I leveraged it to make new connections and strengthen my network. It was through this active presence on social media that I was contacted by USAID to be a director for one of their projects.

I was exclusively interviewed and featured in an international women CEO magazine " Silke Endress" in 2009 as a Lady CEO of Substance. http:// issuu.com/www.silkeendress.com/docs/march2009

HR CONSULTANT/ T&D SPECIALIST / CORPORATE TRAINER

In my relentless pursuit for the latest cutting edge knowledge of my field, I chose neuroscience to be my guiding light. I have trained over 3000 professionals, 800 women and 300 fresh graduates on various topics and spoken at seminars, events and on radio programs. I do my own research and design the workshops to be fast paced, fun and in the end everyone has a few practical tools to take away and use at office the next day.
