Experience

CNAM Bio Center (Governor's Office of Economic Development)

Technology and Business Development Lead
September 2016 - Present (9 years 4 months)
Rapid City, South Dakota, USA

Selected to lead technology development, process improvement, program management, and business development. Liaised with 10 engineers, collaborated with national labs, and established industry partnerships on technology development.

National Institute of Technology Durgapur

Scientific Officer (Senior Manager: Technology Management and Business Development)
September 2013 - September 2016 (3 years 1 month)

Chosen as team leader to conduct research and innovation management, improve revenue generation, create infrastructure development and business development. Established project and leadership strategies for improved performance aligned with organization goals.

Improved revenue by $400 K (62%) and expanded the portfolio from 10 to over 30 projects using innovative leadership strategies including building and leading high-performance teams, public-private partnerships, business relationships, and change management.

Saved $30-50K per year in operational expenses and received $200K award for establishing an instrumentation facility. Enhanced revenue from intellectual properties, consultancy, and funding raised from different projects.

Decreased the operational expenses by approximately 32% and processing time by 50% using an integrated ERP system with procurement, inventory, logistics, and finance modules. Trained over 300 employees on using the developed ERP system for operations management.

Initiated a training proposal resulted in a $20K award to establish public private partnerships and train over 100 passionate entrepreneurs on product innovation.

Central Electrochemical Research Institute (cecri)

Junior Research Fellow (Product Development and Process Improvement)

September 2011 - September 2013 (2 years 1 month)

(Innovation Lab and Incubator)

Engineered healthcare technologies for biomedical applications.

National Institute of Mental Health and Neuro Sciences

Technology Specialist

June 2010 - May 2011 (1 year)

Actively collaborated with both preclinical and clinical research teams and gained experience working in the
molecular diagnostics industry, GLP environments, and WHO projects.

Education

Harvard Business School

CORe Credential of Readiness, Financial Management, Business Analytics, and Economics for Managers
