Steve Sabin

VP - Marketing, Product Management, & Business Development
Medford, Oregon, United States

Summary

I build, inspire, and lead high-performing teams that deliver exceptional B2B results in marketing communications, product management, product marketing, sales, business development, and general management. With the deep experience that comes from persevering in roles long enough to live with both your successes and mistakes, I have learned what it takes to understand customer needs, identify successful new product ideas, shepherd them through the development process, and drive them into the marketplace through world-class communications and sales channel strategies. Versatile, experienced, technically fluent, and well-rounded, I possess leadership maturity spanning multiple disciplines in both established and start-up environments.

KEY ACHIEVEMENTS

• Created organizational urgency, consensus, and vision to develop and successfully launch the world's
leading integrated condition monitoring software ($200M+ product line today).
• Revitalized a mature business with 50+% growth through effective sales and marketing.
• Drove a startup product line to 40% CAGR despite dominant and entrenched competition.
• Reorganized two international marketing teams with strong leadership and strategic vision.
• Promoted quickly to broader executive roles each time employer was acquired by larger entity.

Experience

five-eighteen partners
Principal Managing Partner
August 2019 - Present (6 years 11 months)
Medford, Oregon, United States

Brüel & Kjær Vibro

Vice-President - Marketing, Product Management, and Business Development

May 2017 - August 2019 (2 years 4 months)

Darmstadt, Hessen, Germany

Merged with BKV when they acquired the SETPOINT product line from Metrix in May 2017. Promoted rapidly to VP. Led an international staff of product management, business development, and marketing communications professionals for a $60M business along with overall site management authority for U.S. headquarters.

• Streamlined the German marketing operations despite a strongly unionized environment.

• Retained and energized critical US engineering talent with a carefully tailored incentive program.

• Achieved rapid training / rollout of SETPOINT product line for BKV's entire global sales channel.

• Successfully rebranded SETPOINT while retaining customer loyalty and 40% Net Promoter Score.

Metrix Vibration

Director - Product Management & Marketing

June 2010 - May 2017 (7 years)

Houston, Texas

Recruited by former GE executive and colleague to help define, launch, and grow market share for a major new "start up" product platform (SETPOINT) while also managing the full $40M portfolio of Metrix products with global responsibility for all strategic marketing, product marketing, branding, pricing, product management, and marketing communications. Also managed indirect sales channels throughout NA, Australia, and NZ. Reported to Metrix Vice-President, Condition Monitoring.

• Successfully launched SETPOINT product line and grew 40% year over year.

• Revitalized core business to achieve 50% revenue and profitability growth within 4 years.

• Drove marketing, advertising, and PR to move SETPOINT from unknown to well-known within 2 years and achieve international recognition from Frost & Sullivan (leading market research firm).

• Successfully conducted 2 global sales meetings to maintain sales momentum of 40% annual growth.

• Penetrated numerous new accounts and achieved a superior record of outstanding customer relations.
• Positioned SETPOINT for successful divestiture and was key member of the transition team.

GE Power

Manager - Marketing Communications

January 2002 - June 2010 (8 years 6 months)

Minden, Nevada

Became part of GE Energy when they acquired Bently Nevada in 2002. Promoted quickly to this role leading a large team of marketing professionals across seven businesses and global locations. Reported to President, GE Optimization and Control. Assumed responsibility of all marketing communications for constituent product lines within the GE Optimization and Control business unit:

- Bently Nevada (Minden, NV)
- Panametrics (Waltham, MA)
- KVB-Enertec (Hatfield, PA)
- GE Control Services (Longmont, CO)
- Reuter-Stokes (Twinsburg, OH)
- Praxis Engineers (Milpitas, CA)
- GE Enter Software (Graz, Austria & Davis, CA)

Bently Nevada

12 years 5 months

Director of Marketing

December 1996 - January 2002 (5 years 2 months)

Minden, Nevada

Reported to Bently Nevada President. Global responsibility for leading all strategic marketing, branding, product marketing, marketing communications, and organizational communications through a team of several dozen professionals. Responsibilities grew to also encompass other Bently-owned businesses including Bently Agrowdynamics, Bently Rotor Dynamic Research Corporation (BRDRC), Bently Pressurized Bearing Company, National Tribology, Gibson Tool Company, and Bently Holdings.

Marketing Engineer - Control System Relationships

October 1994 - December 1996 (2 years 3 months)

Minden, Nevada

Reported directly to Bently Nevada President. Responsible for identifying, defining, and improving product and service offerings to integrate Bently Nevada products with DCS, PLC, SCADA, and other automation platforms. Primary business responsibility for identifying, initiating, and sustaining mutually strategic and beneficial relationships with control and automation suppliers including Fisher-Rosemount (Emerson), Foxboro (Invensys), Honeywell, Allen-Bradley (Rockwell), Bailey (ABB), GE, Yokogawa, Westinghouse (Siemens), Compressor Controls Corporation (CCC), and others. Worked closely with C-level executives from these businesses, as many openly expressed interest in acquiring Bently Nevada; nurtured these relationships from acquisitive to cooperative.

Sales Engineer

September 1989 - October 1994 (5 years 2 months)

Edmonton, Alberta

Sales Engineer based in Edmonton (later Calgary), covering Western Canada (BC, AB, SK, MB). Reported to Managing Director. Grew sales from under $500K per year to $2M per year. Relocated to Calgary in 1992 after growing the business sufficient to justify a new satellite office there. Secured multiple large domestic projects with customers such as Shell Canada, Saskferco Fertilizers, Dow Chemical, TransCanada Pipelines, Nova Gas Transmission, SaskPower, Methanex, BC Hydro, Union Carbide, Alberta Power, Edmonton Power, and West Coast Energy. Helped close multi-national projects being engineered in Calgary through Fluor, SNC-Lavalin, Colt, Delta, Bantrell, and others. Gained expertise in large account management spanning multiple geographic locations, buying influences, and stakeholders.

Education

Oregon State University

BSEE, Electrical Engineering
