Dylan Morelle

Business Development, Shield AI
Orlando, Florida, United States

Summary

Business professional and highly accomplished simulation and aviation military officer (O5, LTC, retired) with a demonstrated history of leading, problem solving, and executing at the individual through large team level. Skilled in communicating, strategic growth and operational planning, instructional design, organizational leadership, and modeling and simulation. Strong technical competency, aptitude, and skill with an innate ability to develop senior executive intent into tangible solutions, growth, and revenue. Active TS-SCI security clearance with polygraph.

Experience

Shield AI
Senior Staff Business Development Account Executive
June 2026 - Present (2 months)
Orlando, FL

Aechelon Technology Inc.
Director of ISR Sales
November 2025 - June 2026 (8 months)
Orlando, FL

Responsible for leading business development and sales growth in Aechelon’s Intelligence, Surveillance, and Reconnaissance (ISR) visualization and training markets.
The position focuses on expanding Aechelon’s presence in synthetic ISR systems, encompassing electro-optical, infrared, radar, and geospatial visualization solutions that replicate real-world sensor and intelligence environments for mission training and analysis.

Cubic Defense
Senior Director Business Development
May 2024 - November 2025 (1 year 7 months)
Orlando, Florida, United States

Maxar Technologies

Director of Business Development

August 2021 - May 2024 (2 years 10 months)

Orlando, Florida, United States

Maxar is THE global geospatial insights company. With an emphasis of delivering the right products and tailored solutions for organizations and industry partners across the Department of Defense enterprise.

Synthetic Training Environment CFT

Director, Technology Integration Facility | Military Lead, One World Terrain | Tech Demo Officer

January 2019 - August 2021 (2 years 8 months)

Orlando, Florida

Technology Integration Facility Director, responsible for establishing and managing a collaborative workspace capable of integrating Synthetic Training Environment core technologies and facilitating innovative technologies to further advance and support the STE CFT Director’s vision while performing duties as the military lead for One World Terrain (OWT) and the STE CFT Technology Demonstration Officer. This includes managing a team to support the TIF facilities, operations, and network capabilities. As One World Terrain (3D geospatial data) Lead, responsible for all aspects of OWT, to include, but not limited to, requirements, capabilities, science and technology, messaging, and use cases. Finally, as the STE Cross Functional Team's Demonstration Officer, responsible for representing and demonstrating STE capabilities, prototypes, concepts, and vision to senior military/civilian leaders, industry leaders, and other stakeholders.

US Army National Simulation Center

1 year 3 months

Director, TPO IA

June 2018 - November 2018 (6 months)

Fort Leavenworth, KS

Director of the TRADOC Project Office Integrating Architecture (TPO IA) at the National Simulation Center. The Chief Architect for the design and development of the Integrating Architecture (IA) components of the Integrated Training Environment (ITE). Project Office Lead and user representation for requirements development, new equipment training, fielding plans, and lifecycle management for nine programs of record: Live, Virtual, and Constructive Integrating Architecture (LVC-IA), Synthetic Environment Core (SE Core), Aviation Combined Arms Tactical Trainer (AVCATT), Close

Combat Tactical Trainer (CCTT), Engagement Skills Trainer II (EST II), Basic Electronic Maintenance Trainer II (BEMT II), Call for Fire Trainer II (CFFT II), Games for Training (GFT), Squad Advanced Marksmanship Training (SAMT) to Army Active, Guard, and Reserve Components both CONUS and OCONUS.

Chief, JLCCTC Branch
September 2017 - June 2018 (10 months)
Fort Leavenworth, KS

Chief, Joint Land Component Constructive Training Capability (JLCCTC): Capabilities Developer for Training and Doctrine Command Capabilities Manager Constructive (TCM-C). Supervised the multi-million dollar JLCCTC program to include lifecycle and distribution schedules, prioritization, and program requirements to facilitate constructive simulation training from Battalion through Corps.

2nd Infantry Division - Korea
1 year

Chief, Division Aviation
May 2017 - August 2017 (4 months)
South Korea

Division Aviation Operations Chief. Responsible for coordinating and resourcing division aviation assets to meet the commander's training objectives in both real world and exercise scenarios. Responsible for deconflicting airspace and airfields in a combined and joint environment.

Division Simulation Operations Officer
September 2016 - May 2017 (9 months)
South korea

Simulation Operations and Exercises Officer for the 2nd Infantry Division. Primary division staff expert for the integration of modeling and simulation resources into the division training plan. Provides expertise and guidance for training combat operations using simulations to support both training and military operations. Serves as the Division Commander's subject matter expert for linking embedded systems, Live-Virtual-Constructive (LVC) simulations, and Mission Command Information Systems through coordination of simulation centers to create the environment for leader, staff, soldier and unit training. Assists in the design and management of digital architectures, incorporates simulation-stimulation of MCIS and digital C4ISR systems at the division, brigade, and battalion level.

Simulation Operations (FA57) officers provide the Total Army with a technically educated and tactically grounded cadre of officers specializing in the core areas of Modeling and Simulation Operations (M&S), Mission Command Systems Integration and Operational Knowledge Management (KM). FA57 officers possess the unique skill set required to carry out the Army Training Strategy directives, incorporate the Integrated Training Environment (ITE) and U.S. Army Learning Concept. FA57 officers integrate Army Mission Command Systems to invigorate home station training and optimize resources to confront the increasingly complex environment and uncertain future. FA57 officers assist commanders to accomplish diverse training objectives by leveraging virtual and constructive capabilities to produce operationally ready and adaptable leaders and forces.

1st Armored Division
3 years

Chief Operations Officer
July 2013 - June 2014 (1 year)
Fort Bliss, Texas, United States
