Building Agentic AI for Enterprise │ Founder @ AIGist24 │ 2x AI Exits │ I write about AI Strategy & Execution
Berlin Metropolitan Area

Summary

From C-Suite roles at Unicorn Scaleups to managing 400+ person teams at Fortune 100s, I've seen scale at every level. I've built and exited two AI products. Now, I'm helping the next generation of enterprises do the same.

Most mid-sized companies are drowning in "AI Hype" but starving for ROI. They don't need another chatbot; they need Agentic AI that does real work.

We come in when the theatre has to stop and something real has to ship.

As Founder of AIGist24, I help leadership teams cut through the noise. We don't just consult; we build.
Offices: Berlin | Frisco | Kochi
Track Record: 20+ Implementations since '24 | 35-50% Efficiency Gains.

I work with founders, executives and VCs who want AI that moves P&L, not just share price. When I'm not shipping code or strategy, I'm an Angel Investor backing the next wave of deep-tech founders.

I also run a specialized 10X AI Executive workshop to align leadership teams on AI strategy. It is free, invite-only, and designed for C-suites that want to leapfrog competitors instead of watching them. Message me if you want an invite.

If you want a candid view on where AI can actually help your business in the next 6 to 12 months, send a connection request with a line about what you are building. If you want ongoing, no-theatre commentary on AI, leadership and agents, hit Follow and keep me in your feed.

Experience

AIGist24
Founder & CEO
September 2023 - Present (2 years 5 months)
Berlin, Germany

Offices: Europe (Berlin) • USA (Frisco, TX) • India (Kochi)

What we do

• AI Readiness Assessment – 2 weeks, fixed price. Know exactly where to start and what it will cost. 🆓

• Agentic Automation – autonomous AI agents that plan, decide and act 24/7.

• Custom AI Platforms – from RAG systems to full-stack data products.

• On-Demand Talent – AI & data specialists from $25/hr or $3 k/mo.

Why clients pick us

Enterprise-grade governance with startup speed.

Transparent pricing – no meter running in the background.

Proven track record: 20 + projects shipped since 2024, across fintech, health, retail and logistics.

Global follow-the-sun delivery from three continents.

Typical outcomes

• 35–50 % efficiency lift, 20–40 % cost cut, 60–80 % time saved (yes, we measure).

• Road-mapped AI strategy in 14 days, ready for board approval.

• Production-ready agents in 90 days – not “next fiscal.”

Book a 30-minute discovery call or grab the free 10X AI Executive guide. Your competitors probably already have.

Curaay
Co-Founder and CPO
January 2025 - Present (1 year 1 month)

TAIWA®
ex-Founder and Fractional CPTO
June 2023 - Present (2 years 8 months)
Berlin, Germany

SaaS22
Technology Advisor
September 2023 - Present (2 years 5 months)

Synrgy24
Co-Founder
May 2023 - Present (2 years 9 months)
Berlin, Germany

We are the "Ecosystem Angels". Get a global community of investors, channel partners and operators to not just invest, but grow your SaaS startup.

If you are reaching out for potential Angel investments, please note that i have a narrow investment focus - B2B SaaS only.

Happysales AI
Angel Investor
August 2023 - Present (2 years 6 months)

ZEPIC
Angel Investor
June 2023 - Present (2 years 8 months)

ZEPIC is working on building a No-code Customer Data platform purpose-built for customer engagement powered by AI. ZEPIC platform will one day become the ultimate Single Source of Truth and engagement for all go-to-market teams.

wefox
Chief Data & Analytics Officer
September 2018 - July 2023 (4 years 11 months)
Berlin Area, Germany

wefox is Europe’s largest InsurTech, one of Germany's biggest Unicorns – we are reinventing insurance in the digital age. Growing at over 400% in 2018 in its core DACH market, we are looking to accelerate our growth via an international expansion across Europe and beyond.

Scorable
Managing Director | CTO
October 2019 - July 2020 (10 months)

Scorable offered AI-driven investment analysis, allowing asset managers to reduce risk and outperform the market.

FinstarLabs
Chief Data and Analytics Officer
January 2017 - August 2018 (1 year 8 months)
Berlin Area, Germany

At Finstar Labs we are leveraging deep technology and data science to build a mobile-first, customer focused business that delivers compelling financial products and services to those underserved by traditional financial institutions.

Today 4finance Group is Europe's largest online and mobile consumer lender, with over $500MM in revenue and 3500 employees across 17 countries, but with half the world's adult population still financially underserved, the potential is significant.
