React (Basic) Certificate
JavaScript Algorithms and Data Structures

vishal gautam

Sr. Fullstack Engineer at Ormae
Jaipur, Rajasthan, India

Summary

I craft blazing-fast, scalable UIs that balance cutting-edge tech with real-world usability. With 6+ years in the trenches, I transform complex requirements into elegant React solutions while championing robust testing and maintainable architecture. My passion lies at the intersection of performance and polish - whether optimizing rendering pipelines, mentoring teams, or debating state management strategies.

Experience

ORMAE
Senior Software Engineer
July 2022 - Present (3 years 2 months)

• Architected a modular React frontend with TypeScript and Redux, Improving rendering performance by 40% via code-splitting and memoization.
• Developed real-time dashboards handling 50K+ data points/sec using WebSockets and D3.js, reducing supply chain decision latency by 30%.
• Implemented Jest + Cypress testing (80% coverage), catching 15% critical bugs pre-production.

ScalingWeb
Frontend Engineer
January 2021 - July 2022 (1 year 7 months)
United States

• Built a low-latency (<200ms) video pipeline using WebRTC and WebSockets, increasing viewer retention by 35%.
• Designed an AI-powered moderation dashboard (React/Node.js), reducing manual review workload by 40%.
• Optimized bundle size by 50% using dynamic imports and Tree Shaking.
• Introduced Cypress E2E tests, reducing UI regressions by 60%.

Qutiq Myanmar

Software Engineer

August 2020 - December 2020 (5 months)

India

- Developed a website portal and admin panel for JJTU one of India's leading Research University Using the Concepts of Functional React, Redux, HTML, Sass.
- Worked on a B2B application for a Human Resource Management Firm on React JS.

LivingSpark It Solutions

1 year 9 months

Frontend Developer

April 2019 - August 2020 (1 year 5 months)

India

- Developed admin dashboards and Web Applications for an E-commerce web portal for Devotional Books and Services Using React Js, Redux, JSX & Sass.
- Developed a dynamic portfolio site for Indian Gemological Lab, Naman Gem Testing Lab Using Concepts of React Js, Redux, JSX & Sass.
-Build a web portal for Global Yoga School Using Vanilla Js, HTML, CSS3

Frontend Developer Intern

December 2018 - March 2019 (4 months)

India

- Developed Web Applications portfolio for local business using HTML, CSS , Vanilla Js

Education

Rajasthan Technical University

Bachelor of Technology - BTech, Electrical, Electronics and Communications Engineering · (2011 - 2015)
