16 years 6 months

Aviation Program Manager Airborne Systems Integration Division (ASID)
April 2009 - September 2025 (16 years 6 months)
WOLF (Webster Outlying Field), St. Inigoes, MD

I provide acquisition support to all Aviation Programs and other programs overseen by the Airborne Systems Integration Division (ASID), NAWC WOLF. The Group puts the requirements of Naval Aviation, as well as COCOMs, other Governmental Agencies, and Partner Nations into contractual solutions. Examples of Programs Worked as PM, COR, or GFR:

* Undergraduate Helicopter Training (Military Training Program) for the Mexican Air Force (FAM)

* C-26 Program Sensor Operator Training and Systems Integration for the Mexican Air Force (FAM)
* Colombian Regional Helicopter Training Center (COLAF)
* UH-60 Upgrade Program for the Mexican Federal Police (SSP)
* CASA 235 Procurement for the Yemeni Air Force (YAF)
* CASA 235 Training, Spares and FSR support for the Yemeni Air Force (YAF)
* Cessna Grand Caravan 208B Operational Assessment of the Djiboutian Air Force (FAD)
* Light Observation Aircraft (LOA) Program of Tunisia. Aircraft development, certification, shipping, training, spares and FSR support for a manned ISR aircraft (12 Maule MX7-180B aircraft) capability for the Tunisian Air Force (TAF).
* Manned ISR aircraft support for SOUTHCOM (B200) and AFRICOM (B350)
* Unmanned, autonomous UAS program support for Naval Research Lab
* Government Flight Representative (GFR) for Stalker and Flexrotor UAS operations in
CENTCOM AOR and SOUTHCOM Manned ISR (B200 and DHC-8)
*Current COR for the NAWC WOLF Irregular Air Platform Engineering (IAPE) IDIQ contract
* Current GFR for various SAI VBAT UAS operations world wide
* Currennt GFR of Skydweller, Skyways, and FVR-90, XP-4, Flexrotor, Zenadrone and Pegasus UAS programs in support of demonstration exercises in FY 26.

Aviation Program Manager
April 2009 - May 2025 (16 years 2 months)

Mr. Kevin Holland recently served as an Aviation Program Manager for the Airborne Systems Integration Division (ASID), NAWC WOLF

He is a 26-year veteran Naval Aviator with over 4300 flight hours in both fixed and rotary wing aircraft. He was commissioned an Ensign in the US Navy in 1980 and was designated a Naval Aviator in 1981. His primary aircraft was the venerable Sikorsky H-3 SeaKing and his fleet tours included HC-1, HC-2, and HC-16 where he served as a logistics and search and rescue pilot. He earned an Air Medal, Golden Numeral (1) for heroic flight. His shore tours included HT-8, where he was a rotary wing flight instructor and standardization pilot. He graduated from Air Command and Staff College as well as Armed Forces Staff College and was designated a Joint Specialty Officer (JSO). His other shore tours included a billet as Headquarters Flight Operations Officer

with the Defense Contract Management Command, Naval Aviation Advisor to the Royal Saudi Navy, NAS Patuxent River Air Operations Officer, NAVAIR Aviation Safety Officer, and Deputy Avionics IPT Lead in PMA 273 for the T-45 program. While serving in PMA 273, he received DAWIA Level III certification in Program Management.

Upon his retirement in 2006, Mr. Holland embarked on his civilian career, accepting a position with DCS Corporation in direct support of the CH-53K Avionics IPT in PMA 261, where he served as acting Safety/Navigation IPT Lead. From 2007-2008, he held positions with Serco, Inc. and Raytheon Technical Services Company involving supervisory and business development positions.

In 2009, he joined NAWC WOLF ASID, working first as a SBG Technology Solutions employee, and in November 2009, assumed his position as a government employee.

Mr Holland is now retired from the US Navy, as well as Government service and is living the dream in Summerville, SC with his lovely Wife Joan Phillips Holland, his step daughter Ashley and pups Abby and Levi
