Bryan Claudio

Mixed Reality @ Anduril | Marine Raider
Irvine, California, United States

Summary

I'm a former Marine Special Operations Officer and current product leader at Anduril Industries, where I focus on building and deploying next-generation defense technology. My experience spans combat leadership, product development, and field deployment across air defense, counter-UAS, and tactical simulation and training systems.

At Anduril, I've led autonomy programs, managed SOCOM training teams, and built a zero-to-one CUAS product now fielded across the force. Today, I lead our Simulation and Training efforts for Warfighter Systems, developing AR tools that bring immersive planning and readiness to the tactical edge.

I bring a dual lens as operator and builder into every mission, bridging user needs with real-world product execution. I care about impact, speed, and making sure the right tech gets to the people who need it most.

Experience

Audere Golf
Founder
July 2025 - Present (1 year 1 month)

Premium merino wool golf apparel. No polyester. Built for golfers who know the difference.

Anduril Industries
4 years 11 months

September 2021 - July 2023 (1 year 11 months)

BreakLine Education
Participant
May 2021 - September 2021 (5 months)

BreakLine is a career acceleration program for high-performing veterans who are interested in pivoting into a career in technology. BreakLine participants find opportunities commensurate with their experience and potential, and BreakLine's partners access a new pipeline of exceptional talent. Participants receive a targeted, robust, results-oriented education. They gain access to opportunities with top tech companies, receive 1-on-1 coaching from the BreakLine team, and become part of a curated community of high-performers. Through virtual and in-person programs, BreakLine provides a behind-the-scenes look at their partner companies. They host workshops, in-depth discussions with industry leaders, and provide insight into the industry as a whole.

U.S. Marine Corps Forces Special Operations Command (MARSOC)
Special Operations Officer
January 2018 - July 2021 (3 years 7 months)
Wilmington, North Carolina, United States

Marine Special Operations Officers are responsible for the organization, training, and employment of the Marine Special Operations Teams (MSOT). SOOs are responsible for leading planning and the execution of core special operations tasks including special reconnaissance, direct action, foreign internal defense, counter-terrorism, information operations, and unconventional warfare. SOO Marines possess high levels of maturity, experience, judgment, and the ability to rapidly apply critical thought to the operational environment. They also possess cultural familiarity and are adept at working with partner nation forces in pursuit of strategic goals and objectives.

- As Special Operations Team Commander, directed Department of Defense, Department of State, and non-governmental organization integration into multi-national, joint-service operations to progress US Government interests in East Africa.

- Integrated the employment of unmanned aerial systems, remote audio/visual systems, signals intelligence, wireless networks, and up to 1,100 US and local national personnel to collect and analyze intelligence for operational planning, tactical employment and to develop the host nation's military capability.
- As Foreign Security Force Program Manager assessed host nation capability in pursuit of strategic goals then designed and implemented a previously non-existent doctrinal manual for the development of a 2,400-soldier Partner Nation Military Special Operations Unit.

Action Behavior Centers - ABA Therapy for Autism

Operations Project Manager (Intern)

March 2021 - June 2021 (4 months)

- Selected as a Special Operations Forces Care Coalition Fellow as part of a program to prepare for transition out of the military and gain experience in a business role.
- Solved critical functional shortfalls and built a team to solve end-user pain points while remaining within the stakeholder restraints to revamp administrative processes, restructure knowledge base management, and streamline company-wide communication.

The Honor Foundation

Fellow

August 2020 - November 2020 (4 months)

THF is a 3-month, executive education program that provides tools and experiences to help transition from the SOF community to the next mission in life.

US Marine Corps

4 years 9 months

Recruit Training Series Commander

December 2016 - January 2018 (1 year 2 months)

San Diego, California, United States

- As Recruit Training Series Commander, developed a new performance evaluation process for a 120-person unit to achieve 100% success rate amongst all personnel.
- Responsible for the overall performance, conduct, training, welfare, and safety of nine recruit training platoons totaling over 540 Marine recruits and 45 Marine Corps Drill Instructors.

Infantry Officer
May 2013 - December 2016 (3 years 8 months)
Camp Pendleton, California

- As platoon commander, led a cross-functional team of 45 Marines through two 8-month deployments to further partnerships with Korean, Jordanian, Emirati, and Taiwanese allies. Managed logistics, personnel administration, intelligence, and operational planning.

Astanza Laser
Inside Sales Representative
December 2012 - May 2013 (6 months)
Houston, Texas, United States

- Part of the company's first inside sales team. Established procedures for an inside sales team to build relationships with prospective laser tattoo removal system buyers via B2B engagement, in-person at conventions, and in-house via product demonstration sessions.

Education

UCLA Anderson School of Management
Executive MBA · (August 2024 - June 2026)

Shenandoah University
Bachelor's degree, Biology · (2008 - 2011)
