Professional Engineer, CA

Erol Kilik

Consultant & Tutor for Mechanical, Aerospace & Civil Eng. Students & Engineers - ANSYS & NASTRAN - SolidWorks CAD and Simulation Services, Professional and Employee Development, prinengn@yahoo.com

Long Beach, California, United States

Experience

self

Tutor & Consultant for Mechanical & Aerospace Students and Engineers

April 2015 - Present (10 years 3 months)

Greater Los Angeles Area

* Most Mechanical & Aerospace Engineering classes & subjects, such as Mechanics of Materials, Fluids, Heat Transfer, Thermodynamics, etc. (not Materials)
* Math Subjects and Physics (not nuclear)
* MS or PhD Thesis help (supervised and got completed 14 MS Theses)
* Offering ANSYS (static, linear or non-linear, spectrum and time history analyses) and NASTRAN classes

IA, Inc.

Principal Engineer

September 2010 - October 2014 (4 years 2 months)

* Performed about 20 structural/stress analyses, including optimization, tasks for original designs,
design modifications and repairs using Ansys or Nastran/Patran.
* Set up an Engineering Quality System (including an organized documentation system) in an engineering group suffering from quality
* Checked, corrected and suggested improvements for 300+ Engineering Reports which required format, language, panctuation and technical corrections
* Detected and got corrected SEVEN MAJOR DEFECTs in analyses (called ESCAPES)
* Trained a mostly inexperienced Engineering Staff (delivered more than 10 technical classes)
* Organized 35+ Training Classes (and fully followed)
* Provided Quality and Project Work Leadership to a group of enginers who are mostly inexperienced

* Performed yearly Staff Evaluations (about 180 times) for promotions including Technical Leads and Supervisors
* Interviewed several Job Applicants
* Did Strategic Planning for the Department
* Provided strategic directions for the department to the upper management
* Contributed to EVMS (Engineering Value Management System)
* Contributed to VSM (Value Stream Mapping)

several companies
Consulting
July 2009 - August 2010 (1 year 2 months)
Long Beach, California

Energy and HVAC Analysis for Buildings

Goodrich Aerostructures
Sr. Structural/Stress Engineer (contract)
December 2007 - July 2009 (1 year 8 months)

Super-27 Exhaust Titanium Nozzle Stress Report

Super-27 Composite Outer Cowl Stress Report

Composite Inlet Icing Test Model Stress Report for B-787

Reviewed all structural reports (static, dynamic, acoustics, fatigue, etc) for the nacelles of 787.

Participated in Composite Fastener Test&Analysis Report

Participated in Super-27 Composite Inlet Stress Report

Weight Optimization Study for Composite IFS (B-787)

Boeing
Sr. Structural/Stress Engineer (contract)
September 2006 - November 2007 (1 year 3 months)

Stress Analyses for Structural Modifications in a Boeing-747

Northrop Grumman Aerospace Systems
Sr. Structural/Stress Engineer (contract)
April 2005 - August 2006 (1 year 5 months)

Structural/Stress Analysis for JSF

Fatigue and Damage Tolerance Analyses for JUCAS

Education

Cranfield Ins. of Technology, UK

Mechanical Engineering · (1972 - 1976)

Istanbul Technical University

MS, Mechanical Engineering/Aeronautical · (1968 - 1971)
