Experience

Camunda

Technical Support Engineer

April 2025 - Present (11 months)

BrowserStack

3 years 8 months

Senior Product Support Engineer

May 2023 - April 2025 (2 years)

Mumbai, Maharashtra, India

• Applied advanced troubleshooting techniques and Linux commands to tackle intricate
issues concerning Proxy, VPN, and PAC files on Windows, Linux, and Java servers,
resulting in enhanced system performance and functionality.
• Successfully navigated Single Sign-On (SSO) challenges involving OAuth, SAML, and
multiple IDPs such as Okta and Azure AD, enhancing user access efficiency and security.
• Diagnosed and resolved data-related issues by leveraging SQL and REST APIs, interacting
with Oracle and MySQL databases to expedite solutions.
• Collaborated with Engineering and Security teams to address HTTP and network-related
problems.
• Empowered Product Support Engineers through mentorship, fostering improved
support processes under team leader guidance resulting in enhanced support efficiency
and team collaboration, ultimately optimizing ticket resolution time.
• Reduced team backlog by 10% by taking the initiative to handle additional Automation
products.

Product Support Engineer

September 2021 - May 2023 (1 year 9 months)

Mumbai, Maharashtra, India

• Conducted real-time troubleshooting sessions via Zoom, deploying Chrome DevTools for
intricate issue diagnosis, leading to enhanced problem-solving and detailed resolution

insights.
• Leveraged Splunk and Wireshark to analyze various logs, including HTTP traffic and
RESTful API calls, pinpointing root causes behind critical technical issues.
• Developed comprehensive FAQ and internal documentation, reducing ticket inflow by
20%.
• Performed advanced log analysis and issue resolution by leveraging Looker and
BigQuery, leading to a 30% faster issue resolution and expedited identification of log
patterns.

Newfold Digital
Solution Specialist (Web)
January 2020 - September 2021 (1 year 9 months)
Mumbai, Maharashtra, India

• Addressed and resolved over 200+ customer inquiries weekly encompassing domain
names, DNS, web hosting, email hosting, SSL certificates, and website security products
utilizing a ticketing system, Customer portal, and Knowledge base.
• Showcased expertise in various web technologies and protocols like PHP, HTML, and CSS
while backing multiple wholesale brands, ultimately optimizing operations to elevate
user experience for clients.
• Led Hosting Tier 2 Chat Support, overseeing Linux servers and HTTP configurations to
achieve a 30% increase in monthly resolutions.
• Boosted customer satisfaction and retention metrics by effectively addressing over 1000+
issues, leading to increased customer satisfaction ratings through the implementation of
customer feedback analysis.
