Andrew Nuss, PhD

Head, Growth and Strategy, Anduril Maritime Division | Strategy and Growth | Ex-DARPA | Ex-SCO
Vienna, Virginia, United States

Summary

Head, Growth and Strategy, Maritime Division

Experience

Anduril Industries
2 years 11 months

Head, Growth and Strategy, Maritime Division
March 2025 - Present (1 year 4 months)

Director, Maritime
August 2023 - May 2025 (1 year 10 months)

Anduril Industries is a rocket ship on track to become the United States' next major defense prime contractor. My current role is helping to build an overarching strategy for specific technology areas, building and leading strategic relationships, and leading very large capture campaigns.

Penn State University
Mechanical Engineering Society Mentoring Program
September 2010 - May 2025 (14 years 9 months)

Mentor Mechanical Engineering students (Sophomore through Senior) at Penn State University by providing students with guidance, counsel and networking opportunities. Work with the students to identify career opportunities, new courses or provide technical guidance for classes or projects.

DARPA
Program Manager
November 2017 - July 2023 (5 years 9 months)

The George Washington University
Professorial Lecturer
October 2017 - October 2018 (1 year 1 month)
Washington D.C. Metro Area

EMSE 6070: Strategic Management of Technical Innovation

OSD Strategic Capabilities Office
Program Manager
May 2015 - October 2017 (2 years 6 months)

MIT Naval Construction and Engineering Program
Lecturer-in-Charge
July 2009 - August 2017 (8 years 2 months)
Cambridge, MA

Lead instructor at the Weapon Effects and Ship & Submarine Survivability course, a one-week short course designed for the Navy's Engineering Duty Officers, Navy civilians and contractors and cleared MIT students.

Naval Sea Systems Command (NAVSEA)
Commander's Executive Fellows Program (CEFP)
May 2014 - June 2016 (2 years 2 months)

Competitively selected for the NAVSEA Commander's Executive Fellows Program (CEFP).

Rotational Assignments include:
MAY– NOV 2014: OPNAV N41

DEC 2014 – MAY 2015: ONR Directory of Technology and Director of Research

MAY 2015 - April 2016: Office of the Secretary of Defense's (OSD) Strategic Capabilities Office (SCO)

Naval Surface Warfare Center, Carderock Division, U.S.Navy
2 years 8 months

Head, Vulnerability Assessment Branch
February 2012 - May 2014 (2 years 4 months)
W. Bethesda, MD

Led and directed the work of the 25+ person Vulnerability Assessment Branch of the Survivability and Weapons Effects Division. Led program prioritization, staffing and resourcing in support of organizational and customer requirements. Recruited, developed and organized staff in support of customer requirements. Integrated design and assessment efforts across Submarine, Surface Ship, Aircraft Carrier and Marine Corps analysis. Led development

and assessment of foreign ships and support US weaponeering studies. Directed research programs to improve the ability to predict the vulnerability of ships and submarines to weapon attacks.
Customers: NAVSEA Program Offices, OPNAV Staff, DARPA, NAVAIR Program Offices, Intelligence Community and Fleet activities.

Senior Live Fire Test and Evaluation Manager
October 2011 - February 2012 (5 months)
W. Bethesda, MD

Senior Live Fire Test and Evaluation Manager for the Naval Surface Warfare Center, Carderock Division. Responsible for monitoring all surface ship Live Fire Test & Evaluation (LFT&E) programs lead or executed by the Survivability & Weapons Effects Division. Work with acquisition offices within PEO SHIPS, and technical warrant holders within NAVSEA 05P and other weapon effects experts within the Navy and Department of Defense.

OPNAV N81
Modeling and Simulation Development Task Lead
October 2009 - October 2011 (2 years 1 month)
Pentagon

Studies lead for the World Class Modeling (WCM) initiative, including oversight of ~$15M in annual tasks and studies. Provided technical guidance for Navy-wide modeling efforts across the Manpower; Information Dominance; Sea Strike; Sea Shield; Sea Shaping; Medical; Sea Basing; Joint Campaign; Readiness and Strategic Policy Domains. Frequent interaction and briefings with Navy senior leadership.

NAVSEA
6 years 7 months

CG(X) Survivability Systems Engineering Manager
November 2006 - November 2009 (3 years 1 month)
Washington, Dc

Led multi-disciplinary team developing Congressional oversight survivability requirements for the $100b+ next generation cruiser class program. Developed initial estimates of Damage Tolerance based on early conceptual designs. Responsible for the entire survivability domain, including but not limited to: signatures, mission effectiveness, vulnerability, recoverability, shock and vibration and Chemical, Biological and Radiological (CBR) Defense.

DDG-1000 Vulnerability Assessment Lead
May 2003 - November 2009 (6 years 7 months)

Washington, DC

Worked with multi-disciplinary team conducting vulnerability analysis of the DDG-1000 future surface combatant.

Lead vulnerability analysis for the DDG-1000 LFT&E Detailed Design Vulnerability Assessment Report.

Education

The George Washington University

Doctor of Philosophy - PhD, Systems Engineering

The George Washington University

MS, Mechanical and Aerospace Engineering · (2004 - 2006)

Georgetown University

Certificate, Legislative Affairs · (2014 - 2015)

Naval Postgraduate School

MS, Systems Analysis · (2011 - 2013)

Naval War College

Certificate, Joint Professional Military Education · (2011 - 2013)
