Alec Webster

Deployment Program Manager @ Anduril websteralek@gmail.com
Costa Mesa, California, United States

Summary

As a Program Manager at Anduril Industries, I lead cross-functional teams to deliver mission-critical defense programs. My role integrates technical development, operations, and customer engagement, ensuring alignment across engineering, supply chain, and mission operations to achieve program objectives.

With a background in government contract analysis and RFP building, I bring expertise in corporate finance, risk management, and people management. I am committed to advancing innovative solutions in defense and technology.

Experience

Anduril Industries
Program Manager
September 2025 - Present (10 months)
United States

As a Program Manager at Anduril Industries, I'm responsible for leading complex defense programs from concept through execution, ensuring delivery of mission-critical capabilities to U.S. and allied warfighters. My role bridges technical development, operations, and customer engagement aligning cross-functional engineering, supply chain, and mission operations teams to meet program objectives on cost, schedule, and performance.

DEL REY Systems & Technology, Inc.
Program Manager
June 2024 - September 2025 (1 year 4 months)
San Diego Metropolitan Area

As a Program Manager at DEL REY Systems & Technology, I oversee multiple Navy-focused contracts supporting mission readiness, logistics, and training initiatives across the Naval Aviation Enterprise. My role centers on managing contract performance, ensuring ISO 9000 compliance, developing RFPs, and aligning program execution with customer objectives. I collaborate closely with

government stakeholders, technical teams, and subcontractors to deliver high-quality solutions that strengthen fleet capabilities and operational efficiency.

-Program Manger
-RFP Building
-Government contract analysis
-PMP Training
-Business leadership development

US Navy

5 years 9 months

Program Manager

October 2022 - June 2024 (1 year 9 months)
California, United States

Served as the MQ-8C Fire Scout Program Manager, overseeing all training, tactics development, and operational integration for the squadron. Led the instruction and qualification of aircrew and maintenance personnel, ensuring readiness for deployment operations and fleet introduction of the platform. Directed the rewrite and standardization of key program publications, tactics manuals, and procedural guides to align with evolving mission requirements. Played a critical role in advancing unmanned aviation capability and establishing best practices for MQ-8C operations across the fleet.

Mission payload operater

January 2021 - June 2024 (3 years 6 months)
San Diego, California, United States

My experience includes extensive work with radar systems and proficiency with the BriteStar sensor suite, both integral to the success of our operations. Went out on multiple detachments evaluating readiness and capabilities to take to the fleet.

Aviation Rescue Swimmer

October 2018 - July 2023 (4 years 10 months)
San Diego Metropolitan Area

Served as a U.S. Navy Rescue Swimmer and qualified Door Gunner aboard MH-60S Seahawk helicopters, executing search and rescue, personnel recovery, and tactical support missions across diverse operational environments. Conducted live-fire operations and integrated with aircrew on mission planning and threat response tactics. Trained and mentored junior aircrew in rescue procedures, weapons safety, and mission readiness.

Developed strong leadership, composure, and tactical decision-making skills under pressure in both deployed and domestic operations.

Education

Embry-Riddle Aeronautical University

Uncrewed Systems and Autonomy · (October 2024 - October 2026)
