Etti Singh

Rising Software Engineer | Senior Developer @ RAIoT Lab | Passionate About Python, C, HTML & AI | Campus Delegate at IIT Jodhpur & IIT Roorkee Tech Fests
Alwar, Rajasthan, India

Summary

As a Rising Software Engineer and Senior Developer at RAIoT Lab, I am deeply passionate about building impactful solutions in AI, IoT, and Software Development. At Amity University Rajasthan, I work alongside a talented team to develop innovative projects and lead initiatives that merge creativity with technology.My journey includes representing our university as a Campus Delegate at IIT Jodhpur and IIT Roorkee Tech Fests, where I contributed to competitive events and gained hands-on exposure to real-world problem-solving.Proficient in Python, C, HTML, and AI, I continually explore new technologies and frameworks to expand my skill set. My interests also include Raspberry Pi, Django, and Machine Learning, with a strong focus on developing intelligent and efficient systems.Driven by curiosity and collaboration, I aim to leverage my technical and leadership skills to create meaningful innovations and inspire others in the ever-evolving world of technology.

Experience

RAIoT Labs Amity University Rajasthan
1 year 5 months

Senior Developer
August 2025 - Present (6 months)

As a Senior Developer at RAIoT Lab, I lead and develop innovative projects in IoT, AI, and Robotics, integrating technologies such as ESP modules, RC planes, and GPS systems. My work focuses on creating smart, connected solutions that combine hardware and software to solve real-world problems. Skilled in Python, C, HTML, and AI, I collaborate with cross-functional teams to design efficient systems and mentor junior developers. I've also represented Amity University Rajasthan at IIT Jodhpur and IIT Roorkee Tech Fests, where I contributed to high-impact projects and competitions that strengthened my expertise in embedded systems and intelligent automation.

Junior Developer

September 2024 - November 2025 (1 year 3 months)

Jaipur

As a Junior Developer at RAIoT Lab, I contribute to projects in IoT, AI, and Web Development, working alongside a skilled team to design and build innovative solutions. Skilled in Python, C, HTML, and AI, I focus on writing clean, efficient code and exploring new technologies like Raspberry Pi and Django. I've represented Amity University Rajasthan at IIT Jodhpur and IIT Roorkee Tech Fests, gaining hands-on experience in real-world problem-solving and collaborative development.
